Application and interpretation of this Part

22A.—(1) This Part applies to all exterior features on any building except —

- (a) exterior features on any detached house, semi-detached house, terrace house or linked house, none of which are comprised in any strata title plan; and
- (b) exterior features located on the lowest level of any building.

[34/2004]

(2) In this Part, unless the context otherwise requires —

“applicable date”, in relation to an exterior feature, means the date that is prescribed under section 22C to be the applicable date for that exterior feature;

“grace period”, in relation to an exterior feature, means the period starting from the applicable date for the exterior feature and ending after the time that is prescribed under section 22C for that exterior feature;

“prescribed age”, in relation to an exterior feature, means the age that is prescribed under section 22C to be the prescribed age for that exterior feature.

[34/2004]

Duty to retrofit exterior feature

22B.—(1) Where an exterior feature of a prescribed building has been installed on, forms part of, or projects outwards from the building at any time before the applicable date prescribed for the exterior feature, the person responsible for the exterior feature must carry out or cause to be carried out retrofitting of that exterior feature in such manner, by such person and using such material as may be prescribed in relation to that exterior feature —

- (a) where there is no prescribed age for that exterior feature, or the exterior feature is, on that applicable date, of the

prescribed age or older — within the grace period prescribed for that exterior feature; or

- (b) where the exterior feature is, on that applicable date, less than the prescribed age — within the grace period prescribed for that exterior feature or within the period before the exterior feature attains the prescribed age, whichever period is the longer.

[34/2004]

(2) Any person who, without reasonable excuse, contravenes subsection (1) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding \$5,000 or to imprisonment for a term not exceeding 6 months or to both and, in the case of a continuing offence, to a further fine not exceeding \$500 for every day or part of a day during which the offence continues after conviction.

[34/2004]

(3) If a person is charged with an offence under subsection (2), it is a defence for the person to prove that the person was not the person responsible for the exterior feature at any time during that grace period or before the exterior feature attained that prescribed age, as the case may be.

[34/2004]

(4) For the purposes of this Act, the age of an exterior feature of a building is to be reckoned from the date of its first installation on that building as determined in accordance with the date that is prescribed under section 22C for that exterior feature.

[34/2004]

(5) Nothing in this section is to be construed as —

- (a) prohibiting or preventing the Commissioner of Building Control from exercising any of his or her powers under any other provision of this Act or the building regulations; or
- (b) derogating from the effect of any other provision of this Act or the building regulations or any other written law for the time being in force.

of the building on the completion of those building works.

[47/2007]

(3) To avoid doubt, this Part applies to the physical features of any building, whether constructed before, on or after 15 February 2008.

[47/2007]

Duty of building owner, etc., not to alter

22E.—(1) Every owner or occupier of a building must not remove, alter or obstruct, or cause the removal, alteration or obstruction of, any physical feature of the building where —

- (a) the physical feature satisfies the relevant performance requirement for the purposes of this Part; and

[47/2007]

(2) Where, in the opinion of the Commissioner of Building Control, any physical feature of a building mentioned in subsection (1)(a) has been removed, altered or obstructed so as to cease to satisfy the relevant performance requirement, the Commissioner of Building Control may, by written notice, require such repairs, work or alteration to the physical feature or the building or other remedial action as he or she thinks fit to be carried out to reinstate the physical feature so as to satisfy the relevant performance requirement.

- (d) that the repairs, work, alteration or remedial action must be carried out with due diligence to the satisfaction of the Commissioner of Building Control.

[47/2007]

(4) A notice to reinstate under subsection (2) must be made in respect of any building or any physical feature thereof and must be served —

- (a) on the owner of the building;
- (b) where that owner is not known or cannot be found by reasonable inquiry, on the occupier of the building;
- (c) in the case of a physical feature comprised in any common property or limited common property of any subdivided building, on the owner thereof; or
- (d) in the case of a physical feature comprised in any common property of residential or commercial property in any housing estate of the Housing and Development Board —
 - (i) on the Town Council receiving any rent or charge for the maintenance of that common property; or
 - (ii) where there is no Town Council with the function and duty to maintain that common property, on the Housing and Development Board.

[47/2007]

day during which the failure to comply continues after conviction.

[47/2007]

Appeal against notice to reinstate

22F.—(1) Any person on whom a notice to reinstate under section 22E(2) is served may, within 21 days after the date of receipt of the notice, appeal in writing to the Minister against the notice in the prescribed manner.

[47/2007]

(2) Even though an appeal is lodged under subsection (1), the notice appealed against takes effect and must be complied with unless otherwise ordered by the Minister.

[47/2007]

(3) The Minister may determine an appeal under this section by confirming, varying or cancelling the notice of the Commissioner of Building Control under section 22E(2).

[47/2007]

[22/2012]

Submission of design score for building undergoing major energy-use change

22FB.—(1) An owner of any prescribed building must not carry out, or permit or authorise the carrying out of, any major energy-use change to that building, unless the owner has first —

- (a) appointed a mechanical engineer to assess the design score for the major energy-use change to the building;
- (b) submitted the design score assessed by the mechanical engineer appointed under paragraph (a) to the Commissioner of Building Control for approval, in the prescribed form and manner and accompanied by such documents and fee as may be prescribed; and
- (c) obtained the approval of the Commissioner of Building Control for the design score, which approval has not lapsed at the time of commencement of the major energy-use change.

[22/2012]

(2) Subject to subsection (5), the Commissioner of Building Control must not approve the design score in relation to a prescribed building unless the design score meets the prevailing minimum environmental sustainability standard for that building or a building of that class or type.

[22/2012]

(3) Upon receiving the submission of a design score relating to a prescribed building for approval under subsection (1), the Commissioner of Building Control may direct the owner of the building in writing —

- (a) to comply with any requirements in relation to the major energy-use change that the Commissioner of Building Control may specify so that the design score meets the minimum environmental sustainability standard applicable to the building; and
- (b) to re-submit the design score for the approval of the Commissioner of Building Control within the period specified in the direction.

[22/2012]

(4) If the direction given by the Commissioner of Building Control under subsection (3) is not complied with within the period specified in that direction, the application for approval of the design score is, at

the end of that period, deemed to be disapproved by the Commissioner of Building Control.

[22/2012]

[Act 12 of 2020 wef 01/01/2022]

(5) The Commissioner of Building Control may, on the application of an owner of a prescribed building in any particular case, modify or waive any requirement in relation to the minimum environmental sustainability standard applicable to the building, subject to any conditions that the Commissioner of Building Control may impose.

[22/2012]

(6) The Commissioner of Building Control may approve the design score on the basis of a declaration by the mechanical engineer who assessed the score certifying the correctness of the design score.

[22/2012]

(7) A mechanical engineer appointed under subsection (1)(a) in relation to a prescribed building must —

- (a) design the proposed major energy-use change to the building so that the design score meets the minimum environmental sustainability standard applicable to the building;

shall be guilty of an offence and shall be liable on conviction to a fine not exceeding \$10,000.

[22/2012]

Deviation from approved design score

22FC. Where the design score in relation to any major energy-use change to a prescribed building has been approved by the Commissioner of Building Control under section 22FB and the owner of the building, in carrying out the major energy-use change, intends to depart or deviate from the design on which the approved design score was assessed, the mechanical engineer appointed under section 22FB(1)(a) —

- (a) must ensure that the design score for the major energy-use change with such departure or deviation still meets the minimum environmental sustainability standard, subject to any modification or waiver under section 22FB(5); but
- (b) need not re-submit the design score to the Commissioner of Building Control for approval.

[22/2012]

Lapsing or revocation of approval of design score

22FD.—(1) Unless earlier revoked under subsection (2), any approval granted under section 22FB in respect of a design score for a major energy-use change lapses if no works in respect of that major energy-use change have started within the prescribed period after the approval is granted.

[22/2012]

(2) The Commissioner of Building Control may, at any time, revoke any approval granted in respect of a design score if he or she is satisfied that any information or document submitted to him or her in connection with the design score is false in a material particular.

[22/2012]

(3) Where the approval of a design score is revoked under subsection (2), the owner of the prescribed building must not carry out or continue the major energy-use change to which the revoked approval relates unless the owner has first re-submitted the design score to the Commissioner of Building Control and obtained the approval of the Commissioner of Building Control therefor.

[22/2012]

(4) Any owner of a prescribed building who, without reasonable excuse, contravenes subsection (3) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding \$20,000.

Completion of major energy-use change and submission of as-built score

22FE.—(1) The owner of a prescribed building must, not later than 3 years after the approval of the design score for a major energy-use change to that building by the Commissioner of Building Control —

- (a) complete the major energy-use change in accordance with the design score approved by the Commissioner of Building Control, subject to any departure or deviation which complies with section 22FC; and
- (b) submit to the Commissioner of Building Control in the form and manner and within the time that may be prescribed —
 - (i) the as-built score of the building assessed by the mechanical engineer appointed under section 22FB(1)(a) or, if that mechanical engineer has vacated his or her appointment, another mechanical engineer appointed under subsection (5), for approval by the Commissioner of Building Control;

- (ii) a declaration by the mechanical engineer who assessed the as-built score certifying the correctness of the as-built score; and
- (iii) any other documents that may be prescribed.

[22/2012]

(2) The Commissioner of Building Control may approve the as-built score on the basis of a declaration by the mechanical engineer who assessed the score certifying the correctness of the as-built score.

[22/2012]

(3) A mechanical engineer appointed to assess the as-built score in relation to a prescribed building must, within 7 days after the completion of the major energy-use change —

 - (i) the as-built score and the documents on which the as-built score was assessed;
 - (ii) a declaration as to whether the as-built score meets the minimum environmental sustainability standard applicable to the building;
 - (iii) any document certifying the completion of the major energy-use change that the Commissioner of Building Control may specify; and
 - (iv) any other documents that the Commissioner of Building Control may require.

[22/2012]

(4) If the owner of the prescribed building ceases to be the owner thereof before the submission of the as-built score under subsection (1)(b), the owner must notify the Commissioner of Building Control of that fact not later than 7 days after the owner ceases to be the owner thereof.

[22/2012]

(5) If any mechanical engineer appointed under section 22FB(1)(a) in relation to a prescribed building vacates his or her appointment

before the submission of the as-built score under subsection (1)(b) for that building, the owner of the building must —

- (a) appoint another mechanical engineer to assess the as-built score; and
- (b) within 7 days thereafter, notify the Commissioner of Building Control of that substitute appointment.

[22/2012]

(6) Any owner of a prescribed building who, without reasonable excuse, contravenes subsection (1) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding \$100,000 and, in the case of a continuing offence, to a further fine not exceeding \$1,000 for every day or part of a day during which the offence continues after conviction.
