Units of measurement

3.—(1) The metre is the unit of measurement of length and the kilogram is the unit of measurement of mass by reference to which any measurement involving a measurement of length or mass is to be made in Singapore.

[30/2005]

(2) The First Schedule has effect for defining, for the purposes of measurements falling to be made in Singapore, the units of measurements set out in that Schedule; and for the purposes of any measurement of weight falling to be so made, the weight of anything may be expressed, by reference to the units of measurements set out in Part 5 of that Schedule, in the same terms as its mass.

Standard weights and measures

4.—(1) There is to be maintained by the Agency for Science, Technology and Research established under section 3 of the Agency for Science, Technology and Research Act 1990 or any other person that the Minister may, by notification in the *Gazette*, specify the standards of the metre and kilogram (called in this Act the Singapore standards) by reference to which all other standards of —

(2) A person must not —

- (a) supply for use for trade; or
- (b) use for trade, or have in the person’s possession for use for trade,

any weighing or measuring instrument to which this section applies unless —

- (d) except as otherwise expressly provided under this Act or by regulations made under section 10, the instrument has been affixed with —
 - (i) a stamp; and
 - (ii) an Accuracy Label,

indicating that it has been so passed, and both the stamp and Accuracy Label remain undefaced otherwise than by reason of fair wear and tear.

[30/2005]

(3) Any person who contravenes subsection (2) shall be guilty of an offence and any weighing or measuring instrument in respect of which the offence was committed shall be liable to be forfeited.

[30/2005]

(4) Where —

(a) in accordance with regulations made under section 10, any weighing or measuring instrument is passed as fit for use for trade and affixed with a stamp and an Accuracy Label only after it has been installed at the place where it is used for trade; and

(b) the instrument is subsequently dismantled and reinstalled, whether in the same or some other place,

the instrument must not be used for trade after being so reinstalled until it has been retested by an Authorised Verifier or inspector.

[30/2005]

(5) Any person who —

(a) knowingly uses any weighing or measuring instrument in contravention of subsection (4);

(b) knowingly causes or permits any other person so to use it; or

[30/2005]

Inspection and testing by Authorised Verifier

7A.—(1) Any person requiring any weighing or measuring instrument to which section 7 applies to be tested for its fitness for use for trade by an Authorised Verifier must submit the instrument to the Authorised Verifier in the manner that the Authorised Verifier may require.

[30/2005]

(2) An Authorised Verifier may charge any fee that he or she may determine for the testing of any weighing or measuring instrument submitted to him or her under subsection (1).

[30/2005]

(3) On payment of the fee, the Authorised Verifier must inspect the weighing or measuring instrument and —

- (a) test the instrument for its fitness for use for trade by means of any method of testing, working standard and testing instrument that may be specified by the Controller; and
- (b) subject to the provisions of this Act and any regulations made under section 10, if the instrument being tested falls within the prescribed maximum permissible error, pass the instrument as being fit for use for trade and affix the instrument with a stamp and an Accuracy Label.

[30/2005]

(4) If any difference arises between an Authorised Verifier and the person who submitted the weighing or measuring instrument being tested with respect to any method of testing, working standard or testing instrument used under subsection (3)(a), that difference may with the consent of that other person, and must at the request of that other person, be referred to the Controller whose decision is final.

[30/2005]

(5) Unless the Board otherwise allows, an Authorised Verifier must not pass, or affix a stamp or an Accuracy Label on, any weighing or measuring instrument submitted to him or her under subsection (1) unless a letter of pattern approval in respect of the pattern of that instrument has been issued by the Controller under section 8.

[30/2005]

(6) Where any weighing or measuring instrument submitted to an Authorised Verifier under subsection (1) is of a pattern in respect of which a letter of pattern approval granted under section 8 is for the time being in force, or of such a pattern modified only in a manner for the time being authorised by the Controller under that section, the Authorised Verifier must not refuse to pass, or affix a stamp or an Accuracy Label on, the instrument on the ground that it is not suitable for use for trade.

[30/2005]

(7) For the purposes of subsection (6), if the Authorised Verifier is of the opinion that the weighing or measuring instrument is intended for use for trade for a particular purpose for which it is not suitable, he or she may refuse to pass it as fit for use for trade, or affix a stamp or an Accuracy Label on it, until the matter has been referred to the Controller whose decision is final.

[30/2005]

(8) Where an Authorised Verifier refuses to pass as fit for use for trade any weighing or measuring instrument, the Authorised Verifier must —

- (a) immediately give to the person in charge of that instrument written notice of his or her refusal in the form that the Controller may require; and
- (b) as soon as practicable, send a copy of the notice to the Controller.

[30/2005]

(9) Where it is not possible or practicable to give a notice under subsection (8)(a), the Authorised Verifier must attach the notice to the weighing or measuring instrument to which the notice relates.

[30/2005]

(10) Every Authorised Verifier must —

- (a) keep a record of —
 - (i) every inspection and test carried out by him or her under subsection (3); and
 - (ii) every instance in which the Authorised Verifier breaks any stamp affixed on any weighing or measuring instrument; and
- (b) submit to the Controller, in the form, comprising the information and within the time that the Controller may require, together with any fee that may be prescribed —
 - (i) a report on every inspection and test carried out by him or her under subsection (3); and

- (ii) a report on every instance in which the Authorised Verifier breaks any stamp affixed on any weighing or measuring instrument.

[30/2005]

(11) Any Authorised Verifier who fails to keep any record referred to in subsection (10)(a) shall be guilty of an offence.

[30/2005]

Inspection and testing by inspector

7B.—(1) Any person requiring any weighing or measuring instrument to which section 7 applies to be tested for its fitness for use for trade by an inspector must submit the instrument to the inspector in the manner that the Controller may direct.

[30/2005]

(2) On payment by the person mentioned in subsection (1) of the prescribed fee, the inspector must inspect the weighing or measuring instrument and —

- (a) test the instrument by means of any method of testing, working standard and testing instrument that the inspector considers appropriate or, subject to any condition which may be prescribed, by means of any other instrument which has already been tested and which the inspector considers suitable for the purpose; and
- (b) subject to the provisions of this Act and any regulations made under section 10, if the instrument submitted falls within the prescribed maximum permissible error, pass the instrument as being fit for use for trade and affix the instrument with a stamp and an Accuracy Label.

[30/2005]

(3) If any difference arises between an inspector and the person who submitted the weighing or measuring instrument for testing with respect to any method of testing, working standard or testing instrument used under subsection (2)(a), that difference may with the consent of that other person, and must at the request of that other person, be referred to the Controller whose decision is final.

[30/2005]

(4) Unless the Board otherwise allows, an inspector must not pass, or affix a stamp or an Accuracy Label on, any weighing or measuring instrument submitted to him or her under subsection (1) unless a letter of pattern approval in respect of the pattern of that instrument has been issued by the Controller under section 8.

[30/2005]

(5) Where any weighing or measuring instrument submitted to an inspector under subsection (1) is of a pattern in respect of which a letter of pattern approval granted under section 8 is for the time being in force, or of such a pattern modified only in a manner for the time being authorised by the Controller under that section, the inspector must not refuse to pass, or affix a stamp or an Accuracy Label on, the instrument on the ground that it is not suitable for use for trade.

[30/2005]

(6) For the purposes of subsection (5), if the inspector is of the opinion that the weighing or measuring instrument is intended for use for trade for a particular purpose for which it is not suitable, he or she may refuse to pass it as fit for use for trade, or affix a stamp or an Accuracy Label on it, until the matter has been referred to the Controller whose decision is final.

[30/2005]

(7) Every inspector must keep a record of every inspection and test carried out by him or her under subsection (2).

[30/2005]

(8) Nothing in this section or section 7 requires any inspector to inspect, test or pass any weighing or measuring instrument as fit for use for the purpose of section 7 unless there is no Authorised Verifier able to do so without unreasonable delay.

[30/2005]

Approved patterns of instruments for use for trade

8.—(1) Any importer or manufacturer who intends, in the course of any trade or business, to supply in Singapore any weighing or measuring instrument to which section 7 applies must —

- (a) submit in the manner that the Controller may require the pattern of that instrument to the Controller for

examination, together with any fee that may be prescribed;
and

- (b) obtain from the Controller a letter of pattern approval signifying the suitability of that instrument for use for trade.

[30/2005]

(2) Any importer or manufacturer who, in the course of any trade or business, supplies in Singapore any weighing or measuring instrument in respect of which a letter of pattern approval from the Controller has not been obtained shall be guilty of an offence.

[30/2005]

(3) Upon receipt of the pattern of a weighing or measuring instrument and any prescribed fee under subsection (1), the Controller must, in the manner that may be prescribed, examine the suitability for use for trade of the pattern of the weighing or measuring instrument, having regard in particular to the principle, materials and methods used or proposed to be used in its construction.

[30/2005]

(4) If, upon completion of the examination under subsection (3), the Controller is satisfied that the weighing or measuring instrument examined is suitable for use for trade, then, subject to section 9(2), the Controller —

- (a) must issue a letter of pattern approval of that pattern and cause particulars thereof to be published; and
- (b) may from time to time thereafter authorise any minor modifications thereof that he or she thinks fit and cause particulars of those modifications to be published.

[30/2005]

(5) The requirements of subsection (4) as to the publication of the particulars of any pattern or modification do not apply where the letter of pattern approval is issued subject to a condition that is mentioned in subsection (6).

[30/2005]

(6) A letter of pattern approval issued under subsection (4) may be granted subject to a condition that, except with the Controller's consent, the weighing or measuring instrument of the pattern

approval in question must be used for trade only for a specified period or a specified purpose.

[30/2005]

(7) Any person who, knowing that a condition mentioned in subsection (6) has been imposed with respect to any weighing or measuring instrument —

- (a) uses, or causes or permits any other person to use, that instrument in contravention of that condition; or
- (b) disposes of that instrument to any other person in a state in which it could be used for trade without informing that other person of that condition,

shall be guilty of an offence and the instrument shall be liable to be forfeited.

[30/2005]

(8) The Controller, after consultation with any person appearing to the Controller to be interested that the Controller thinks fit, may at any time revoke any letter of pattern approval or authorisation granted under this section, and must cause notice of the revocation to be published.

[30/2005]

- (a) uses for trade, or has in the person's possession for such use, or causes or permits any other person so to use, any weighing or measuring instrument of the pattern or incorporating the modification in question; or
- (b) disposes of any such instrument to any other person in a state in which it could be so used without informing that other person of the revocation,

shall be guilty of an offence and the instrument shall be liable to be forfeited.

[30/2005]

(10) Any weighing or measuring instrument of a pattern in respect of which a letter of pattern approval has been granted under this section may, and in the cases that may be prescribed, must, be marked in the manner that may be prescribed so as to identify it with the pattern in question.

[30/2005]

General specifications of instruments for use for trade

9.—(1) The Minister may by regulations prescribe general specifications for the construction of weighing or measuring instruments to which section 7 applies.

[30/2005]

(2) Subject to subsection (4), where any general specification is for the time being prescribed under subsection (1), a letter of pattern approval must not be issued under section 8 in respect of the pattern of any weighing or measuring instrument unless the pattern complies with the prescribed general specifications.

[30/2005]

(3) Where any specification prescribed by regulations made under this section is varied or revoked by further regulations made under this section, then if any person uses for trade, or has in the person's possession for such use, or causes or permits any other person so to use, any instrument which conformed with that specification but which to the person's knowledge no longer conforms to any specification so prescribed, or disposes of any such instrument to any other person in a state in which it could be so used without informing that other person that it no longer so conforms, the person shall be guilty of an offence and the instrument shall be liable to be forfeited.

[30/2005]

(4) Where, in the case of any particular instrument, the Controller is of the opinion that there are special circumstances which make it impracticable or unnecessary for that instrument to comply with any particular requirement of any specification prescribed under this section, the Controller may exempt that instrument from that requirement subject to compliance with the conditions (if any) that he or she thinks fit; and if any person knowingly contravenes any condition imposed with respect to any instrument by virtue of this

subsection, the person shall be guilty of an offence and the instrument shall be liable to be forfeited.

[30/2005]

Regulations relating to weighing or measuring instruments for trade

10.—(1) The Minister may make regulations with respect to —

- (a) the materials and principles of construction of weighing or measuring instruments for use for trade;
- (b) the inspection, testing and passing as fit for use for trade of weighing or measuring instruments, and stamps and Accuracy Labels and the affixing thereof, including —
 - (i) the circumstances in which the affixing of stamps and Accuracy Labels on weighing or measuring instruments are prohibited or are not necessary;
 - (ii) prohibiting the affixing of stamps or Accuracy Labels or both on prescribed instruments and requiring them to be affixed elsewhere;
 - (iii) the period for which stamps and Accuracy Labels are to remain in force;
 - (iv) the circumstances in which an inspector may remove or detain any weighing or measuring instrument for inspection or testing; and
 - (v) the marking of any weighing or measuring instrument found unfit for use for trade;
- (c) the circumstances in which, conditions under which and manner in which stamps may be obliterated or defaced and Accuracy Labels cancelled;
- (d) the retesting of weighing or measuring instruments passed as fit for use for trade;
- (e) the purposes for which particular types of weighing or measuring instruments may be used for trade;
- (f) the manner of erection or use of weighing or measuring instruments used for trade;

- (g) the abbreviations of or symbols for units of measurement which may be used for trade; and
- (h) the manner in which the tare weight of road vehicles, or of road vehicles of any particular class or description, is to be determined.

[30/2005]

(2) The regulations made under subsection (1) may provide that any contravention of the regulations is an offence punishable with a fine not exceeding \$2,000, and that any weighing or measuring instrument in respect of which the contravention was committed shall be liable to be forfeited.

[30/2005]

(3) Where in the special circumstances of any particular case it appears to be impracticable or unnecessary that any requirement of any regulations made under this section should be complied with, the Minister may if he or she thinks fit dispense with the observance of that requirement subject to compliance with the conditions (if any) that he or she thinks fit to impose, and if any person knowingly contravenes any condition imposed with respect to any instrument by virtue of this subsection the person shall be guilty of an offence and the instrument shall be liable to be forfeited.

[30/2005]

[30/2005]

(4) In subsection (3), "goods" includes catch weight goods.

[30/2005]

(5) For the purposes of subsection (3), the weight, measure or number of the goods (other than catch weight goods) in a package is deemed to be the same as that stated on the package or label on the package if —

(a) the package meets the conditions prescribed by regulations made under section 37; or

(b) the package is one package in a lot of packages that meets the conditions prescribed by regulations made under section 37.

[30/2005]

(6) It is a defence for any person charged with an offence under this section in respect of a package from a lot of packages containing desiccating goods to prove that —

(a) at any time on the day the package was made up or during a period of 7 days beginning on the day after the day the package was made up —

(i) the weighed average quantity of any sample taken from the lot of packages, as determined in accordance with regulations made under section 37, was equal to or exceeded the quantity stated on the package or a label attached to it;

(ii) the number of non-standard packages in any sample taken from the lot of packages was equal to or less than the appropriate number specified for the purpose in regulations made under section 37; and

- (iii) there were no inadequate packages in any sample taken from the lot of packages; or

(8) Nothing in this section applies —

- (a) in relation to any goods or sales that are mentioned in section 16(4)(a) or (b); and
- (b) in relation to the sales of goods with a view to their industrial or constructional use, except —
 - (i) where the sale in question is or would be one which is required by this Act to be made only by quantity expressed in a particular manner or in the case of which the quantity of the goods sold is required by any provision of this Act to be made known to the buyer at or before a particular time;
 - (ii) where the goods are prepacked or otherwise made up in or on a container for sale or for delivery after sale and are goods such as are required by this Act to be prepacked, or to be otherwise so made up, (as the case may be) only if the container is marked with an indication of quantity or only in particular quantities; or
 - (iii) where the goods are goods such as are required by this Act to be made for sale only in particular quantities.

Pleading of warranty as defence

20.—(1) Subject to this section, in any proceedings for an offence under this Part or any subsidiary legislation made under this Part,

being an offence relating to the quantity or prepacking of any goods, it is a defence for the person charged to prove —

- (a) that the person bought the goods from some other person —
 - (i) as being of the quantity which the person charged purported to sell or represented, or which was marked on any container or stated in any document to which the proceedings relate; or
 - (ii) as conforming with the statement marked on any container to which the proceedings relate, or with the requirements of this Act and any subsidiary legislation made under this Act with respect to the prepacking of goods,
as the case may require;
- (b) that the person so bought the goods with a written warranty from that other person that they were of that quantity or (as the case may be) did so conform;
- (c) that at the time of the commission of the offence the person had no reason to believe the statement contained in the warranty to be inaccurate, that the person did in fact believe in its accuracy and, if the warranty was given by a person who at the time of giving the warranty was resident outside Singapore, that the person charged had taken reasonable steps to check the accuracy of that statement; and
- (d) in the case of proceedings relating to the quantity of any goods, that the person took all reasonable steps to ensure that, while in the person's possession the quantity of the goods remained unchanged and, in the case of such or any other proceedings, that apart from any change in their quantity the goods were at the time of the commission of the offence in the same state as when the person bought them.

(2) A warranty is a defence in such proceedings only if, not later than 7 days before the date of the hearing, the person charged has sent

to the prosecutor a copy of the warranty with a notice stating that the person charged intends to rely on it and specifying the name and address of the person from whom the warranty was received, and has also sent a like notice to that person.

(3) Where the person charged is a servant of a person who, if the second-mentioned person had been charged, would have been entitled to plead a warranty as a defence under this section, subsection (1) has effect as if any reference (however expressed) in paragraphs (a) to (d) of that subsection to the person charged, other than the first such reference in paragraph (c) of that subsection, were a reference to the employer of the person charged.

(4) The person by whom the warranty is alleged to have been given is entitled to appear at the hearing and to give evidence.

(5) If the person charged in any such proceedings wilfully attributes to any goods a warranty given in relation to any other goods, the person shall be guilty of an offence.

(6) A person who, in respect of any goods sold by the person in respect of which a warranty might be pleaded under this section, gives to the buyer a false warranty in writing shall be guilty of an offence unless the person proves that when the person gave the warranty the person took all reasonable steps to ensure that the statements contained in the warranty were, and would continue at all relevant times to be, accurate.

(7) For the purposes of this section, any statement with respect to any goods which is contained in any document required by this Act to be associated with the goods or in any invoice, and, in the case of goods made up in or on a container for sale or for delivery after sale, any statement with respect to those goods with which that container is marked, is deemed to be a written warranty of the accuracy of that statement.

Additional defences and safeguards for traders

21.—(1) In any proceedings for an offence in respect of any goods under this Part or any subsidiary legislation made under this Part, it is a defence for the person charged to prove —

- (a) that the commission of the offence was due to a mistake, or to an accident or some other cause beyond the person's control; and
- (b) that the person took all reasonable precautions and exercised all due diligence to avoid the commission of the offence in respect of those goods by the person or any person under the person's control.

(2) In any proceedings for an offence under this Part or any subsidiary legislation made under this Part by reason of the quantity —

- (a) of any goods made up for sale or for delivery after sale (whether by way of prepacking or otherwise) or in or on a container marked with an indication of quantity;
- (b) of any goods which, in connection with a sale or agreement for the sale of the goods, have associated therewith a document purporting to state the quantity of the goods; or
- (c) of any goods required by this Act to be prepacked, or to be otherwise made up in or on a container for sale or for delivery after sale, or to be made for sale, only in particular quantities,

being less than that marked on the container or stated in the document in question or than the relevant particular quantity (as the case may be), it is a defence for the person charged to prove that the deficiency arose —

- (d) in a case falling within paragraph (a), after the making up of the goods and the marking of the container;
- (e) in a case falling within paragraph (b), after the preparation of the goods for delivery pursuant to the sale or agreement and after the completion of the document; and
- (f) in the case falling within paragraph (c), after the making up or making (as the case may be) of the goods for sale,

and was attributable wholly to factors for which reasonable allowance was made in stating the quantity of the goods in the

marking or document or in making up or making the goods for sale, as the case may be.

(3) In the case of a sale by retail of food, not being food prepacked in a container which is, or is required by this Act to be, marked with an indication of quantity, in any proceedings for an offence under this Part or any subsidiary legislation made under this Part by reason of the quantity delivered to the buyer being less than that purported to be sold, it is a defence for the person charged to prove that the deficiency was due wholly to unavoidable evaporation or drainage since the sale and that due care and precaution were taken to minimise any such evaporation or drainage.

(4) Without affecting any defence under subsection (2) or (3), in any proceedings for such an offence in respect of any goods as is mentioned in subsection (2) it is not a defence under subsection (1)(a) for the person charged to prove that the commission of the offence was due to some cause beyond the person's control if that cause was one which should reasonably have been foreseen and for which allowance could reasonably have been made in stating the quantity of the goods or in making up or making the goods, as the case may be.

(5) If in any proceedings for an offence under this Part or any subsidiary legislation made under this Part, being an offence in respect of any deficiency in the quantity of any goods sold, it is shown that between the sale and the discovery of the deficiency the goods were with the consent of the buyer subjected to treatment which could result in a reduction in the quantity of those goods for delivery to, or to any person nominated in that behalf by, the buyer, the person charged must not be found guilty of that offence unless it is shown that the deficiency cannot be accounted for by the subjecting of the goods to that treatment.

(6) In any proceedings for an offence under this Part or any subsidiary legislation made under this Part, being an offence in respect of any excess in the quantity of any goods, it is a defence for the person charged to prove that the excess was attributable to the taking of measures reasonably necessary in order to avoid the commission of an offence in respect of a deficiency in those or other goods.

(7) If proceedings for an offence under this Part or any subsidiary legislation made under this Part in respect of any deficiency or excess in the quantity —

- (a) of any goods made up for sale (whether by way of prepacking or otherwise) in or on a container marked with an indication of quantity;
- (b) of any goods which have been prepacked or otherwise made up in or on a container for sale or for delivery after sale, or which have been made for sale, and which are required by this Act to be prepacked, or to be otherwise so made up, or to be so made, (as the case may be) only in particular quantities,

are brought with respect to any article, and it is proved that, at the time and place at which that article was tested, other articles of the same kind, being articles which, or articles containing goods which, had been sold by the person charged or were in that person's possession for sale or for delivery after sale, were available for testing, the person charged must not be convicted of such an offence with respect to that article unless a reasonable number of those other articles was also tested; and in any proceedings for such an offence the court —

- (c) if the proceedings are with respect to one or more of a number of articles tested on the same occasion, is to have regard to the average quantity in all the articles tested;
- (d) if the proceedings are with respect to a single article, is to disregard any inconsiderable deficiency or excess; and
- (e) is to have regard generally to all the circumstances of the case.

Offence relating to document containing particular statements

21A. If, in the case of any goods required by this Act to have associated therewith a document containing particular statements, that document is found to contain any such statement which is materially incorrect, any person who, knowing or having reasonable cause to suspect that statement to be materially incorrect, inserted it

or caused it to be inserted in the document, or used the document for the purposes of this Act or any subsidiary legislation made under this Act while that statement was contained in the document, shall be guilty of an offence.

[30/2005]

Offences due to default of third person

22.—(1) A person against whom proceedings are brought for an offence under this Part or any subsidiary legislation made under this Part is, upon information duly laid by the person and on giving to the prosecutor not less than 7 clear days' notice of the person's intention to avail himself, herself or itself of this subsection entitled to have brought before the court in those proceedings any other person to whose act or default the person alleges that the commission of the offence was due; and if, after the offence has been proved, the original defendant proves that the commission of the offence was due to an act or default of that other person —

- (a) that other person may be convicted of the offence; and
- (b) if the original defendant further proves that the original defendant exercised all due diligence to avoid the commission of the offence by the original defendant or any person under the original defendant's control, the original defendant must be acquitted of the offence.

(2) Where a defendant seeks to avail himself, herself or itself of subsection (1) —

- (a) the prosecutor, as well as the person whom the defendant charges with the offence, has the right to cross-examine the defendant, if the defendant gives evidence, and any witness called by the defendant in support of the defendant's pleas, and to call rebutting evidence; and
- (b) the court may make any order that it thinks fit for the payment of costs by any party to the proceedings to any other party to the proceedings.

(3) Where it appears to any authority by or on behalf of whom proceedings of such an offence may be instituted that such an offence has been committed by some person (A), and that authority is

reasonably satisfied that the offence was due to an act or default of some other person (*B*) and that *A* could establish a defence under subsection (1), that authority may take or authorise the taking of proceedings against *B* without first taking or authorising the taking of proceedings against *A*; and in any such proceedings *B* may be charged with, and, on proof that the commission of the offence was due to *B*'s act or default, be convicted of, the offence with which *A* might have been charged.

(4) Where by virtue of subsection (3) a person is charged with an offence with which some other person might have been charged, the reference in section 21(7) to articles or goods sold by or in the possession of the person charged is to be construed as a reference to articles or goods sold by or in the possession of that other person.

Offences originating in countries outside Singapore

23.—(1) Where proceedings are brought against any person for an offence under this Part or any subsidiary legislation made under this Part and it is proved —

- (a) that the commission of the offence was due to an act or default of some other person which took place outside Singapore; and
- (b) that the person charged took all reasonable precautions and exercised all due diligence to avoid the commission of the offence by the person charged or any person under the control of the person charged,

then, subject to subsection (2), the person charged must be acquitted of the offence.

(2) The person charged (*A*) is not entitled to be acquitted under this section unless within 7 days from the date of the service of the summons on *A*, *A* has given written notice to the prosecutor of *A*'s intention to rely on this section, specifying the name and address of the person (*B*) to whose act or default *A* alleges that the commission of the offence was due, and has sent a like notice to *B*; and *B* is entitled to appear at the hearing and to give evidence.

 - (c) has in the person’s possession or charge for sale, or awaiting or in the course of delivery to a buyer after they have been sold or agreed to be sold, any goods prepacked or otherwise made up in or on a container for sale or for delivery after sale which are required by this Act to be prepacked, or to be otherwise so made up (as the case may be), only in particular quantities or only if the container is marked with particular information, or any goods prepacked in or on a container marked with an indication of quantity, or any goods required by this Act to be made for sale only in particular quantities,

- (d) weigh or otherwise measure or count the goods;
- (e) weigh any container in or on which the goods are made up;
- (f) if necessary for the purposes of either paragraph (d) or (e), break open any such container or open any vending machine in which the goods are offered or exposed for sale,

and, in the case of any of the goods which are not already sold, power to require that person to sell any of them to the inspector.

(2) Where the container or package of any prepacked goods is broken open under subsection (1), the inspector is not under any

obligation to re-seal the container or package or pay for the goods, whether on behalf of the Controller or otherwise.

[30/2005]

(3) Nothing in subsection (1)(a), (b) or (c) applies in relation to the sale of goods with a view to their industrial or constructional use except in such a case as is specified in section 19(8)(b)(i), (ii) or (iii).

Powers of inspector with respect to certain documents

25.—(1) An inspector, subject to the production if so requested of his or her authority in writing, may require the person in charge of any document required by this Act to be associated with any goods to produce that document for inspection.

(2) If the inspector has reasonable cause to believe that any document produced to him or her under subsection (1) contains any inaccurate statement, the inspector may either —

- (a) seize and detain the document, giving in exchange for the document a copy of the document with an endorsement signed by him or her certifying that the original has been seized and giving particulars of any inaccuracy alleged; or
- (b) without prejudice to any proceedings which may be taken by reason of any inaccuracy alleged, make on the document an endorsement signed by him or her giving particulars of any such inaccuracy,

and, save where the context otherwise requires, any reference in this Act to any such document is deemed to include a reference to a copy of such document given pursuant to paragraph (a).

(3) Where, in the case of any goods being carried on a road vehicle, the whole of the vehicle's load is being carried for, or for delivery after sale to the same person, and any document produced pursuant to subsection (1) by the person in charge of the vehicle purports, or is required by this Act, to state the quantity of the goods, then, for the purpose of the exercise of his or her powers under section 24(1), the inspector may do all or any of the following things:

- (a) require the goods to which the document relates to be unloaded from the vehicle;

- (b) require the vehicle to be taken to the nearest suitable and available weighing or measuring instrument;
- (c) require the person in charge of the vehicle to have it check-weighed:

Provided that the powers conferred by this subsection are to be exercised only to the extent that appears to the inspector reasonably necessary in order to secure that the provisions of this Act and any subsidiary legislation made under this Act are duly observed.

[30/2005]

Check-weighing of certain road vehicles

26. Where any road vehicle is loaded with goods for sale by weight to a single buyer of the whole of the vehicle's load, or for delivery to the buyer after they have been so sold, the buyer or seller of the goods, or any inspector who shows that he or she is authorised to do so by the buyer or seller of the goods, may require the person in charge of the vehicle to have it check-weighed, and if that person without reasonable cause fails to comply with any such requirement that person shall be guilty of an offence.

Power to make test purchases

27. An inspector has power to make any purchases of goods that may appear to him or her to be expedient for the purpose of determining whether or not the provisions of this Act and any subsidiary legislation made under this Act are being complied with.

Selling by quantity, making quantity known, and weighing in presence

28.—(1) Where any goods are required by this Act to be sold by quantity expressed in a particular manner —

- (a) it is sufficient compliance with that requirement in the case of any sale of, or agreement to sell, any such goods if the quantity of the goods expressed in the manner in question is made known to the buyer before the purchase price is agreed;

- (b) no person shall be guilty of an offence under section 17(1) by reason of the exposing or offering for sale of such goods at any time if both the quantity of the goods expressed in the manner in question and the price at which they are exposed or offered for sale are made known at that time to any prospective buyer.

(2) For the purposes of this Act and any subsidiary legislation made under this Act, without prejudice to any other method of making known to a person the quantity of any goods expressed in a particular manner, that quantity is deemed to be made known to that person —

- (a) if the goods are weighed or otherwise measured or counted, as the case may require, in the presence of that person;
- (b) if the goods are made up in or on a container marked with a statement in writing of the quantity of the goods expressed in the manner in question and the container is readily available for inspection by that person; or
- (c) upon such a statement in writing being delivered to that person.

(3) Where the Minister by order provides that this subsection is to apply, in the case of the goods in the circumstances that are specified in the order, to any requirement so specified under this Act or any subsidiary legislation made under this Act with respect to the making known to the buyer of the quantity by weight of such goods sold by retail, then, in any case to which the order applies, that requirement is deemed to be satisfied if the goods are bought at premises at which any weighing instrument of such description as may be prescribed —

- (a) is kept available by the occupier of those premises for use without charge by any prospective buyer of such goods for the purpose of weighing for himself, herself or itself any such goods offered or exposed for sale by retail on those premises;
- (b) is so kept available in a position on those premises which is suitable and convenient for such use of the instrument; and

- (c) is reserved for use for that purpose at all times while those premises are open for retail transactions,

and a notice of the availability of the instrument for such use is displayed in a position on the premises where it may be readily seen by any such prospective buyer.

[30/2005]

(4) For the purposes of this Act and any subsidiary legislation made under this Act, a person is not to be deemed to weigh or otherwise measure or count any goods in the presence of any other person unless the firstmentioned person causes any instrument used for the purpose to be so placed, and so conducts the operation of weighing or otherwise measuring or counting the goods, as to permit that other person a clear and unobstructed view of the instrument (if any) and of the operation, and of any indication of quantity given by any such instrument as the result of that operation.

[30/2005]

Selling by retail by weight, measure or number

28A.—(1) Any person who offers or exposes for sale by retail by weight, measure or number goods which are not prepackaged when so offered or exposed for sale must weigh, measure or count the goods —

- (a) at the time of sale;
- (b) in the presence of the buyer; and
- (c) in the case of goods sold by weight or measure, by means of a suitable weighing or measuring instrument.

[30/2005]

(2) Any person who offers or exposes for sale by retail by weight, measure or number goods which are prepackaged and weighed, measured or counted before they are so offered or exposed for sale at the premises or place where they are so offered or exposed for sale must, at the buyer's request, weigh, measure or count the goods —

- (a) in the presence of the buyer; and
- (b) in the case of goods sold by weight or measure, by means of a suitable weighing or measuring instrument.

[30/2005]

(3) Every weighing or measuring instrument used to weigh or measure goods for the purposes of this section and any necessary weights or measures must be so situated that the weighing or measuring of the goods and the recorded or indicated weight or measurement of the goods can be easily seen by the buyer.

[30/2005]

(4) Any person who contravenes this section shall be guilty of an offence.

[30/2005]
