[18/2011]

(5) Any person who contravenes subsection (1) or (2) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding $1,000 and, in the case of a second or subsequent conviction, to a fine not exceeding $2,000.

Duties of manufacturers and suppliers of machinery, equipment or hazardous substances used at work

16.—(1) Subject to this section, it is the duty of any person who manufactures or supplies any machinery, equipment or hazardous substance for use at work to ensure, so far as is reasonably practicable —

(a) that the following information about the safe use of the machinery, equipment or hazardous substance is available
to any person to whom the machinery, equipment or hazardous substance is supplied for use at work:

(i) the precautions (if any) to be taken for the proper use and maintenance of the machinery, equipment or hazardous substance;

(ii) the health hazards (if any) associated with the machinery, equipment or hazardous substance; and

(iii) the information relating to and the results of any examinations or tests of the machinery, equipment or hazardous substance under paragraph (c) that are relevant to its safe use;

(b) that the machinery, equipment or hazardous substance is safe, and without risk to health, when properly used;

(c) that the machinery, equipment or hazardous substance is examined and tested so as to comply with the obligation imposed by paragraph (b).

(2) The duties imposed on any person specified in subsection (1) —

(a) apply only if the machinery, equipment or hazardous substance is manufactured or supplied in the course of trade, business, profession or undertaking carried on by the person, whether for profit or not;

(b) apply whether or not the machinery, equipment or hazardous substance is exclusively manufactured or supplied for use by persons at work; and

(c) extend to the supply of the machinery, equipment or hazardous substance by way of sale, transfer, lease or hire and whether as principal or agent, and to the supply of the machinery, equipment or hazardous substance to a person for the purpose of supply to others.

(3) The duties imposed on any person specified in subsection (1) do not apply to a person by reason only that the person supplies the machinery or equipment under a hire-purchase agreement, conditional sale agreement or credit-sale agreement to another (called in this section the customer) in the course of a business of
financing the acquisition of the machinery or equipment by the customer from others.

(4) Where a person (called in this subsection the ostensible supplier) supplies any machinery or equipment for use at work to a customer under a hire-purchase agreement, conditional sale agreement or credit-sale agreement, and the ostensible supplier —

(a) carries on the business of financing the acquisition of goods by others by means of such agreements; and

(b) in the course of that business acquired an interest in the machinery or equipment supplied to the customer as a means of financing its acquisition by the customer from a third person (called in this subsection the effective supplier),

the effective supplier is treated for the purposes of this section as supplying the machinery or equipment to the customer instead of the ostensible supplier, and any duty imposed by subsection (1) on a supplier accordingly applies to the effective supplier, and not to the ostensible supplier.

(5) Where a person designs, manufactures or supplies any machinery, equipment or hazardous substance for use at work and does so for or to another on the basis of a written undertaking by that other to take specified steps sufficient to ensure, so far as is reasonably practicable, that the machinery, equipment or hazardous substance will be safe and without risk to health when properly used, the undertaking has the effect of relieving the firstmentioned person from the duty imposed by subsection (1)(b) to such extent as is reasonable having regard to the terms of the undertaking.

(6) Any person required under subsection (1)(c) to ensure that any machinery, equipment or hazardous substance is examined and tested so as to comply with the obligation imposed by subsection (1)(b) is regarded as having complied with subsection (1)(c) to the extent that —

(a) the examination or test has already been carried out otherwise than by, or on behalf of, the person; and
(b) it is reasonable for the person to rely on that examination or test.

(7) For the purposes of this section, an absence of safety, or a risk to health, is to be disregarded insofar as the case in or in relation to which it would arise is shown to be one the occurrence of which could not reasonably be foreseen.

(8) In this section, “supplier”, in relation to any machinery, equipment or hazardous substance, does not include a manufacturer of those items when supplying, but includes an importer when supplying those items.

(9) This section applies only to machinery, equipment or hazardous substances specified in the Fifth Schedule.

Duties of persons who erect, install or modify machinery or equipment and persons in control of machinery for use at work

17.—(1) It is the duty of any person who erects, installs or modifies any machinery or equipment for use at work to ensure, so far as is reasonably practicable, that the machinery or equipment is erected, installed or modified in such a manner that it is safe, and without risk to health, when properly used.

(2) The duty imposed on a person erecting, installing or modifying any machinery or equipment under subsection (1) applies only if the machinery or equipment is erected, installed or modified in the course of the person’s trade, business, profession or undertaking.

(3) Any person required under subsection (1) to ensure that any machinery or equipment is erected, installed or modified in such a manner that it is safe, and without risk to health, when properly used is regarded as having complied with that subsection to the extent that —

(a) the person ensured, so far as is reasonably practicable, that the erection, installation or modification was in accordance with the information supplied by the designer, manufacturer or supplier of the machinery or equipment regarding its erection, installation or modification; and

(b) it is reasonable for the person to rely on that information.
(4) Where any machinery moved by mechanical power is used in any workplace, then despite anything in this Act, it is the duty of the owner of the machinery to ensure —

(a) so far as is reasonably practicable, that the machinery is maintained in a safe condition; and

(b) that the precautions (if any) to be taken for the safe use of the machinery and the health hazards (if any) associated with the machinery are available to any person using the machinery.

(5) Where the owner of any machinery moved by mechanical power has entered into a contract of hire or lease with a hirer or lessee, the duty imposed under subsection (4) applies to the hirer or lessee of the machinery instead of the owner.

(6) Where the owner, hirer or lessee of any machinery moved by mechanical power has entered into a contract with another person to maintain the machinery, the duty under subsection (4)(a) applies to that other person instead of the owner, hirer or lessee of the machinery.

(7) Subsections (1), (2) and (3) apply only to machinery or equipment specified in Part 1 of the Fifth Schedule.

(4) Any occupier of a workplace must —

(a) ensure that the records mentioned in subsection (3) are kept for at least 5 years from the date the records were made or such other period as may be prescribed; and

(b) whenever required to do so within that period, produce and make available to an inspector for inspection a copy of the records.

(5) Any person who contravenes subsection (1) or (2) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding $5,000 or to imprisonment for a term not exceeding 6 months or to both.
