(3) When proving service of the notice, order or document mentioned in subsection (2), it is sufficient to prove that the envelope containing the notice, order or document (as the case may be) was properly addressed, stamped and posted by registered post.

Electronic service

79A.—(1) The Authority may provide an electronic service for the service of any document that is required or authorised by this Act to be given to or served on any person.

(2) For the purposes of the electronic service, the Authority may assign to any person —

- (a) an authentication code; and
- (b) an account with the electronic service.

(3) Despite section 79, where any person has given the person's consent for any document to be given to or served on the person through the electronic service, the Authority may give or serve the document on that person by transmitting an electronic record of the document to that person's account with the electronic service.

(4) Where a person has given the person's consent for a document to be given to or served on the person through the electronic service, the document is deemed to have been given or served at the time when an electronic record of the document enters the person's account with the electronic service.

(5) Despite any other written law, in any proceedings under this Act —

- (a) an electronic record of any document that was given or served through the electronic service; or
- (b) any copy or print-out of that electronic record,

- (d) is duly authenticated in the manner specified in subsection (7) or is otherwise authenticated in the manner provided in the Evidence Act 1893 for the authentication of computer output.

(6) To avoid doubt —

- (a) an electronic record of any document that was given or served through the electronic service; or
- (b) any copy or print-out of that electronic record,

is not inadmissible in evidence merely because the document was given or served without the delivery of any equivalent document or counterpart in paper form.

(7) For the purposes of this section, a certificate —

- (a) giving the particulars of —
 - (i) any person whose authentication code was used to give or serve the document; and
 - (ii) any person or device involved in the production or transmission of the electronic record of the document, or the copy or print-out of the electronic record;
- (b) identifying the nature of the electronic record or copy or print-out of the electronic record; and
- (c) purporting to be signed by the Authority or by a person occupying a responsible position in relation to the operation of the electronic service at the relevant time,

is sufficient evidence that the electronic record, copy or print-out has been duly authenticated, unless the court, in its discretion, calls for further evidence on this issue.

(8) Where the electronic record of any document, or a copy or print-out of that electronic record, is admissible under subsection (5), it is presumed, until the contrary is proved, that the electronic record, copy or print-out accurately reproduces the contents of that document.

(9) The Authority may make regulations which are necessary or expedient for carrying out the purposes of this section, including regulations prescribing the procedure for the use of the electronic service, including the procedure in circumstances

where there is a breakdown or interruption of the electronic service.
