10

EXPLANATORY STATEMENT

Part XI of the United Nations Convention on the Law of the Sea (the Convention), as modified by the Agreement relating to the Implementation of Part XI of the United Nations Convention on the Law of the Sea of 10 December 1982 (the Agreement), creates a regime for the exploration for and exploitation of the mineral resources of the deep seabed. Among other things, the regime seeks to protect the marine environment against any harmful effects caused by such exploration and exploitation activities.

The regime covers the seabed and ocean floor, and the subsoil thereof, beyond the limits of any national jurisdiction (the Area). Under the regime, the International Seabed Authority (the ISA) may make a contract (an ISA contract) with a person sponsored by a State, authorising the person to explore for or exploit a specified type of resource (such as polymetallic nodules) at a specified part of the Area. A sponsored person who enters into a contract with the ISA (a contractor) must comply with its obligations under the ISA contract, the Convention and the Agreement. The sponsoring State must take measures under its domestic legal system to secure the contractor's compliance with the contractor's obligations. If the sponsoring State fails to take such measures, the sponsoring State will be liable for any damage caused by a failure by the contractor to comply with the contractor's obligations.

The Bill therefore seeks to —

- (a) regulate the exploration for and exploitation of resources by persons sponsored by Singapore under the Convention and the Agreement;
- (b) ensure the effective protection of the marine environment against any harmful effects of those activities; and
- (c) fulfil Singapore’s obligations under the Convention and the Agreement in relation to those activities.

PART 1

PRELIMINARY

Part 1 (consisting of clauses 1, 2 and 3) concerns preliminary matters.

Clause 1 relates to the short title and commencement.

Clause 2 defines certain terms used in the Bill. In particular, the definitions of “Area” and “resource” adopt, with technical changes, the definitions of “Area” and “resources” under the Convention.

Clause 3 states the purposes of the Bill, as mentioned above.

PART 2

REGULATION OF DEEP SEABED MINING

Part 2 (consisting of clauses 4 to 17) creates a licensing system for deep seabed mining and provides for related matters. The licensing system gives effect to Singapore’s obligations under Article 139 and Annex III, Article 4 of the Convention, i.e. to ensure that persons who are exploring for or exploiting minerals in the Area under Singapore’s sponsorship comply with their obligations under the Convention, the Agreement and their respective ISA contracts.

Clause 4 makes it an offence for a Singapore national to explore for or exploit any resource in the Area, except as provided in clause 5. A Singapore national is defined (in clause 2) as a Singapore citizen or an entity incorporated, formed or established in Singapore under any written law.

Clause 5 provides for 2 exceptions to clause 4.

- (a) Clause 5(1) enables a company incorporated in Singapore (a Singapore company) to explore for or exploit any resource in any part of the Area if authorised to do so under a licence and a corresponding ISA contract, both of which must be in force.
- (b) Clause 5(2) enables an individual who is a Singapore citizen to explore for or exploit any resource in any part of the Area if 2 conditions are met. First, the individual is acting as an employee or agent of (i) a Singapore

company in respect of which the requirements in clause 5(1) are satisfied; or (ii) a person who has entered into an ISA contract under the sponsorship of a foreign State, and the ISA contract remains in force. Second, the individual is acting within the scope of the licence granted to the Singapore company, or the ISA contract entered into by the person, as the case may be.

Clause 6 empowers the Minister to grant a licence to explore for or exploit any type of resource in any part of the Area. A licence must state the type of resource to which the licence applies (such as polymetallic nodules), whether the licensee is allowed to explore for or exploit the resource, and the part of the Area in which the licensee is allowed to explore for or exploit the resource.

Clause 7 provides for the criteria for granting a licence. Among other things, a licence can only be granted to a Singapore company, and the Minister must be satisfied that it is in Singapore's interest to grant the licence.

Clause 8 empowers the Minister to issue a certificate of sponsorship to a licensee, so that the licensee can apply to the ISA for a corresponding ISA contract.

Clause 9 provides for the coming into force and the duration of a licence.

Clause 10 empowers the Minister to impose licence conditions. The Minister may impose a financial penalty for a breach of a licence condition.

Clause 11 empowers the Minister to give written directions to a licensee. The Minister may impose a financial penalty if a licensee fails to comply with a direction without reasonable excuse.

Clause 12 provides for the transfer of a licence with the Minister's approval.

Clause 13 provides that a licence lapses when certain events occur.

Clause 14 empowers the Minister to suspend or revoke a licence in certain circumstances. If the Minister revokes a licence, the Minister may also withdraw any certificate of sponsorship issued to the licensee.

Clause 15 allows a licensee to make representations to the Minister before its licence is suspended or revoked.

Clause 16 empowers the Minister to give directions when a licence comes to an end or is transferred. A person who complies with a direction of the Minister will not be liable for any loss or damage suffered by any person as a result. The Minister may impose a financial penalty on a person who fails to comply with a direction without reasonable excuse.

Clause 17 provides that where a licensee is responsible or liable for any wrongful act under Annex III, Article 22 of the Convention, the High Court may grant such compensation or other remedy to a person for the licensee's wrongful act as may be granted to that person pursuant to that Article. This gives effect to

Singapore's obligation (under Article 235 of the Convention) to provide recourse against such wrongful acts.

PART 3

ENFORCEMENT OF DECISIONS AND AWARDS

Part 3 (consisting of clauses 18, 19 and 20) provides for the enforcement of certain decisions and awards made under or pursuant to the Convention.

Clause 18 empowers the High Court to order the registration of a decision of the Seabed Disputes Chamber. This gives effect to Singapore's obligation (under Annex VI, Article 39 of the Convention) to enforce such decisions.

Clause 19 provides for the effect of registering a decision of the Seabed Disputes Chamber.

Clause 20 enables arbitral awards made pursuant to Article 188(2)(a) of the Convention to be enforced under Part III of the International Arbitration Act (Cap. 143A). This gives effect to Singapore's obligation (under Annex III, Article 21 of the Convention) to enforce such awards.

PART 4

MISCELLANEOUS

Part 4 (consisting of clauses 21 to 25) contains miscellaneous provisions.

Clause 21 provides for the criminal liability of the officers of an entity when the entity commits an offence under the Bill.

Clause 22 provides for the recovery of financial penalties under the Bill.

Clause 23 empowers the Rules Committee constituted under section 80(3) of the Supreme Court of Judicature Act (Cap. 322) to make Rules of Court for the purposes of clause 17 and Part 3.

Clause 24 empowers the Minister to make regulations.

Clause 25 provides for Singapore companies which, before the date of commencement of the Bill, have been sponsored by the Government in their applications to the ISA to be contractors.

EXPENDITURE OF PUBLIC MONEY

This Bill will not involve the Government in any extra financial expenditure.
