(2) A supplier whose tender is received after the expiry of the time limit for the submission of tenders, shall not be penalised if the delay is caused solely by mishandling on the part of the contracting authority.

(3) A contracting authority shall ensure that any opportunity given to a supplier to correct errors of form between the opening of tenders and the award of the contract does not result in discrimination against any other supplier participating in the tender.

(3) Subject to paragraph (4), a contracting authority shall award the contract to the supplier which has been determined by the contracting authority to be capable of complying with the terms and conditions of the contract and which, based on the evaluation criteria set out in the notice of intended procurement and the tender documentation, has submitted —

- 
- 
- (a) where price is the sole criterion, the lowest price; or
  - (b) where price is not the sole criterion, the most advantageous tender.

(4) A contracting authority may decide not to award the contract if it is of the opinion that it is in the public interest not to do so.

(5) If a contracting authority receives from a supplier a tender which offers a price abnormally lower than other tenders submitted, the contracting authority may make enquiries from the supplier concerned to ensure that the supplier has satisfied the conditions of participation and is capable of complying with the terms and conditions of the contract.

(6) A contracting authority shall not use options, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations under these Regulations.

**Non-disclosure of information**

**33.** Notwithstanding any provision in these Regulations, a contracting authority shall not provide a supplier any information regarding a particular procurement where such a provision might prejudice fair competition between suppliers.
