Meaning of participant capacity requirement

5.  - (i) another segregation zone for that same business event; or
 - (ii) the venue where another business event is taking place concurrently and in the vicinity of the venue

where the firstmentioned business event takes place or is to take place; and

- (e) to establish and apply procedures or controls so as —
- (i) to ensure that a participant allocated to a segregation zone for the business event, does not physically interact with another participant allocated to another segregation zone for that business event, when they enter or leave each other's allocated segregation zone; and
 - (ii) to minimise the transmission of COVID-19 between participants allocated to different segregation zones.

(2) The segregation requirement for a venue where a business event that is a trade show takes place, or is to take place, means the requirement —

- (a) to establish one or more segregation zones in the participants' area in the venue, with each zone providing for not more than 50 individuals to be present, whether exhibitors or customers;
- (b) to clearly delineate the boundaries of each segregation zone in a substantially unbroken manner by means any of the following:
 - (i) any wall or other non-porous partition or screen that is 1.8 metres or taller measured from the floor of the part of the participants' area;

- (c) to allocate —
 - (i) each customer who is a participant of the business event to not more than one segregation cohort for the business event; and
 - (ii) each exhibitor who is a participant of the business event to not more than one segregation zone for the business event;

-
-
- (d) to ensure that —
- (i) any customer who is a participant allocated to a segregation cohort for the business event, does not, during the crowd management period of that business event join another segregation cohort for that same business event; or
 - (ii) any exhibitor who is a participant of the business event does not, during the crowd management period of that business event enter or remain in another segregation zone for that same business event or another business event taking place concurrently and in the vicinity of the venue where the firstmentioned business event takes place or is to take place; and
- (e) to establish and apply procedures or controls so as —
- (i) to ensure that a participant allocated to a segregation cohort does not physically interact with another participant allocated to another segregation cohort when they enter or leave a segregation zone;
 - (ii) to ensure that a participant allocated to a segregation zone does not physically interact with another participant allocated to another segregation zone when they enter or leave their respective segregation zones; and
 - (iii) to minimise the transmission of COVID-19 between participants allocated to different segregation cohorts and to different segregation zones.

Meaning of contact-tracing requirement

7.—(1) The contact-tracing requirement for a venue where a business event takes place or is to take place means the requirement to establish and apply, so far as is reasonably practicable, (jointly with another or otherwise) appropriate procedures and controls specially relating to the business event —

- (a) that enable or facilitate contact tracing of every participant and non-participant who enters the venue; and

(b) that comply with any direction under regulation 15(3) addressed to the occupier in relation to that business event.

(2) The contact-tracing requirement in these Regulations is in addition to the requirement in regulation 10B(1)(c) of the Main Control Order.

Meaning of entry controls

8.—(1) The basic entry controls for a venue where a business event takes place, or is to take place, means the requirement —

(a) to establish and apply appropriate procedures and controls (jointly with another or otherwise) that ensure, as far as is reasonably practicable, that every individual about to enter the venue is assessed, before entering, to determine whether he or she is a symptomatic case;

(b) to refuse entry to the venue by any individual whom the venue manager of the venue knows or has reason to believe —

(i) is a symptomatic case;

(ii) is subject to a movement control measure;

(iii) who refuses to comply with any measure mentioned in sub-paragraph (a); or

(iv) who refuses to comply with any contact-tracing measure established or applied by the venue manager in order to comply with the contact-tracing requirement; and

(c) to refuse entry to the venue by any individual whom the venue manager of the venue knows or has reason to believe to be seeking entry for any purpose other than as a participant or non-participant.

(2) The “enhanced entry controls” with respect to a business event means a requirement to establish and maintain, during the crowd management period of the business event, all reasonably practicable procedures and protocols that ensure that any participant or non-participant or combination of participants and non-participants,

without a cleared status, do not enter or remain within the venue where the business event takes place, or is to take place, during that crowd management period.

(3) Any word or expression in paragraph (2) that is defined in the Infectious Diseases (Mass Gathering Testing for Coronavirus Disease 2019) Regulations 2021 (G.N. No. S 273/2021) has the meaning given to it by those Regulations.

Meaning of cleaning requirement

9. The cleaning requirement for a venue in which a business event takes place, or is to take place, means the requirement —

 - (i) are periodically cleaned and disinfected within each day, following appropriate procedures and at an appropriate frequency so as to minimise the transmission of COVID-19 from the use of the same area by several such individuals at the same time or different times; and

-
-
- (i) is periodically cleaned and disinfected after each use, following appropriate procedures and at an appropriate frequency so as to minimise the risk of transmission of COVID-19 from the sharing or common and continuous touching of the equipment, device, goods, article or thing by or on several such individuals; and
 - (ii) is not easily accessible for use by more than one such individual (or any combination of them) at the same time or different times, by applying appropriate procedures and controls that minimise such sharing or use and the physical interaction between these individuals;
 - (c) to ensure that a reasonable period of time elapses —
 - (i) since the end of an earlier business event to allow for cleaning as described in sub-paragraph (a) or (b) or both, in between the earlier business event and the start of the next business event; or
 - (ii) if the business event is a series of meetings, exhibitions or displays, since the end of an earlier meeting, exhibition or display to allow for cleaning as described in sub-paragraph (a) or (b) or both, in between the earlier meeting, exhibition or display and the start of the next meeting, exhibition or display, as the case may be; and
 - (d) to ensure that the venue is cleaned and disinfected at the end of daily business, and before re-opening after any closure of business or undertaking (voluntarily or otherwise) at the venue.

- (b) to minimise any physical interaction during the crowd management period of the business event, between any participant at the business event and any non-participant within the venue where the business event takes place or is to take place;
- (c) to ensure that every participant during the crowd management period of the business event that is not a trade show is at all times at least one metre away from any other individual in that participants' area;

-
-
- (i) no food or drink is supplied or consumed at the participants' area where the business event takes place or is to take place; and

- (2) In addition to paragraph (1), an occupier of a venue where a business event takes place or is to take place must establish and maintain, during the crowd management period of the business event, enhanced entry controls with respect to the business event where —
- (a) the venue is a restricted place within the meaning of the Infectious Diseases (Mass Gathering Testing for Coronavirus Disease 2019) Regulations 2021; and
 - (b) the approving authority gives a direction under regulation 15(3) requiring enhanced entry controls with respect to that business event.
- (3) However, paragraph (1)(d) does not apply to prevent the consumption of a drink in an emergency where the drink is necessary to preserve life or prevent injury or further injury.

Requirements for organiser of business event

- 12.—**(1) An organiser of a business event which is not a trade show must take all reasonably practicable measures —
- (a) to ensure no audience participation during the crowd management period of the business event;
 - (b) to minimise any physical interaction during the crowd management period of the business event between —
 - (i) any participant of the business event whose principal purpose at the business event is to preside at, speak or otherwise take charge of proceedings in, or to

regulate the number and length of, meetings, staged or conducted, or to be staged or conducted, at the business event; and

(ii) any other participant; and

(c) to ensure that every direction given under regulation 15(3) with respect to that business event is complied with during the crowd management period of the business event.

(a) every participant and non-participant in the venue where the business event is taking place are each wearing a mask if the participant or non-participant (as the case may be) is not authorised under any Control Order to not wear a mask or he or she does not have a reasonable excuse to be unmasked; and

(b) the number of individuals who are unmasked in the venue where the business event is taking place does not exceed the maximum number permissible under the COVID-19 (Temporary Measures) (Performances and Other

Activities — Control Order) Regulations 2020 for individuals engaged in public speaking or who are performers in the live performance, if these elements are present during the business event.

Cooperating with occupier of business event venue

13. Every participant present in a venue in which a business event is taking or is to take place must, during the crowd management period of the business event, cooperate with the occupier of that venue and the organiser of the business event to enable the occupier and organiser to comply with the respective requirements of the occupier and organiser under these Regulations in relation to the business event.

Mask wearing

14.—(1) During the crowd management period of a business event taking place in a venue, every participant in the participants' area and every non-participant in the venue must not be unmasked where he or she has no reasonable excuse to be unmasked.

(2) Paragraph (1) does not prevent an individual to be unmasked where he or she is authorised under any Control Order to not wear a mask or he or she has some other reasonable excuse to be unmasked.

Alternative arrangements

15.—(1) The approving authority may approve a shorter crowd management period or waive (in whole or part) any requirement in regulation 5, 6(1) or (2) or 11(1)(d) in respect of a particular business event only —

- (a) on the application of the person who is the organiser of the business event or the occupier of the venue where the business event is taking place or both; and
- (b) if the approving authority is personally satisfied that all of the matters in paragraph (2) apply.

(2) The matters the approving authority must be satisfied are as follows:

-
-
- (a) the person who is the organiser of the business event or the occupier of the venue where the business event is taking place or both —
- (i) have adequately identified the significant risks to the incidence and transmission of COVID-19 in the community in Singapore associated with the matter applied to be approved or waived;
 - (ii) have established a plan on how to manage or control those risks; and
 - (iii) each has the relevant knowledge, competency, experience and suitable compliance record connected with safe management measures for business events of the same nature as the particular business event;
- (b) there are requirements in other written law or there are other means that help minimise the public health risks associated with the matter to be approved or waived, besides the Main Control Order and these Regulations;
- (c) the granting of the approval or waiver (as the case may be) is necessary or desirable to facilitate resumption of business or to avoid unnecessary restrictions on commerce having regard to the incidence and transmission of COVID-19 in the community in Singapore when the application is made;
- (d) the nature of the business event is suitable for the granting of the approval or waiver (as the case may be) despite the risk to public health;
- (e) there are applicable international obligations or mercantile practice or customs for holding the event in a particular way.

(3) Any approval or waiver by the approving authority of an application under paragraph (1) in respect of a particular business event may be accompanied by directions addressed to the person who is the organiser of the business event or the occupier of the venue where the business event is taking place or both, containing —

-
-
- (a) variations of any requirements in these Regulations in relation to that particular business event, which may include more stringent requirements than in these Regulations;
 - (b) a requirement for enhanced entry controls to be established and maintained at the venue, during the crowd management period of the business event; or
 - (c) other measures in respect of that business event that satisfy the objectives and performance requirements in the Main Control Order and these Regulations for preventing, protecting against, delaying or otherwise controlling the incidence or transmission of COVID-19 in Singapore, having regard to the nature of the business event (such as whether it is open to consumers or not),

so as to mitigate the significant risks to the incidence and transmission of COVID-19 in the community in Singapore associated with the matter approved or waived.

Interface with Main Control Order

16.—(1) The requirements specified in these Regulations are in addition to the requirements in the Main Control Order, and these Regulations prevail if, and to the extent, there is any inconsistency between these Regulations and the requirements in the Main Control Order insofar as those requirements in the Main Control Order may apply in connection with any business event.

- (2) These Regulations do not apply to prevent or restrict —
 - (a) the Government or any public body doing or omitting to do anything in the performance of any function, the exercise of any power or the discharge of any duty of the Government or public body (as the case may be) under law; or
 - (b) any individual acting under the authority or direction of the Government or any public body in the performance of any function, the exercise of any power or the discharge of any

duty of the Government or public body (as the case may be) under law.

(3) Without limiting the meaning of “reasonable excuse” in section 34(7) of the Act, it is a reasonable excuse for a person doing or omitting to do any act in contravention of any provision of these Regulations if the act is done or omitted to be done in good faith and for the purpose of complying with or giving effect to —

- (a) any other written law; or
- (b) any order or requirement of the Government or a public body, or an individual mentioned in paragraph (2)(b), given in the performance of any function, the exercise of any power or the discharge of any duty of the Government or public body (as the case may be) under law.
