ENDANGERED SPECIES (IMPORT AND EXPORT) ACT (CHAPTER 92A)

ENDANGERED SPECIES (IMPORT AND EXPORT) ACT (AMENDMENT OF SCHEDULE) (NO. 3) NOTIFICATION 2016

In exercise of the powers conferred by section 28 of the Endangered Species (Import and Export) Act, the Minister for National Development makes the following Notification:

Citation and commencement

1. This Notification is the Endangered Species (Import and Export) Act (Amendment of Schedule) (No. 3) Notification 2016 and comes into operation on 2 January 2017.

Amendment of Schedule

2. The Schedule to the Endangered Species (Import and Export) Act is amended —

(a) by inserting, immediately after paragraph 3 under the heading “Interpretation of the Appendices”, the following paragraph:

“3A. In these Appendices, unless the context otherwise requires —

“Conference of the Parties” means the Conference of the Parties to CITES;

“Secretariat” means the Secretariat established under Article XII of CITES;

“Standing Committee” means the Standing Committee of the Conference of the Parties established under Annex 1 of Resolution Conf. 11.1 (Rev. CoP16) adopted by the Conference of the Parties.”; and

(b) by deleting the Appendices and substituting the following Appendices:

“

¹ For the exclusive purpose of allowing international trade in fibre from vicuñas (*Vicugna vicugna*) and their derivative products, only if the fibre comes from the shearing of live vicuñas. Trade in products derived from the fibre may only take place in accordance with the following provisions:

- (a) Any person or entity processing vicuña fibre to manufacture cloth and garments must request authorisation from the relevant authorities of the country of origin (Countries of origin: The countries where the species occurs, that is, Argentina, Bolivia, Chile, Ecuador and Peru) to use the “vicuñas country of origin” wording, mark or logo adopted by the range States of the species that are signatories to the Convention for the Conservation and Management of the Vicuña.
- (b) Marketed cloth or garments must be marked or identified in accordance with the following provisions:
 - (i) For international trade in cloth made from live-sheared vicuña fibre, whether the cloth was produced within or outside the range States of the species, the wording, mark or logo must be used so that the country of origin can be identified. The VICUÑA [COUNTRY OF ORIGIN] wording, mark or logo has the format as detailed below:

This wording, mark or logo must appear on the reverse side of the cloth. In addition, the selvages of the cloth must bear the words VICUÑAS [COUNTRY OF ORIGIN].

- (ii) For international trade in garments made from live-sheared vicuña fibre, whether the garments were produced within or outside of the range States of the species, the wording, mark or logo indicated in paragraph (b)(i) must be used. This wording, mark or logo must appear on a label on the garment itself. If the garments are produced outside of the country of origin, the name of the country where the garment was produced should also be indicated, in addition to the wording, mark or logo referred to in paragraph (b)(i).

- (c) For international trade in handicraft products made from live-sheared vicuña fibre produced within the range States of the species, the VICUÑA [COUNTRY OF ORIGIN] ARTESANÍA wording, mark or logo must be used as detailed below:

- (d) If live-sheared vicuña fibre from various countries of origin is used for the production of cloth and garments, the wording, mark or logo of each of the countries of origin of the fibre must be indicated, as detailed in paragraphs (b)(i) and (ii).
- (e) All other specimens shall be deemed to be specimens of species listed in Appendix I and the trade in them shall be regulated accordingly.

² Populations of Botswana, Namibia, South Africa and Zimbabwe (listed in Appendix II):

For the exclusive purpose of allowing:

- (a) trade in hunting trophies for non-commercial purposes;
- (b) trade in live animals to appropriate and acceptable destinations, as defined in Resolution Conf. 11.20 (Rev. CoP17), for Botswana and Zimbabwe and for *in situ* conservation programmes for Namibia and South Africa;
- (c) trade in hides;
- (d) trade in hair;
- (e) trade in leather goods for commercial or non-commercial purposes for Botswana, Namibia and South Africa and for non-commercial purposes for Zimbabwe;
- (f) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe;
- (g) trade in registered raw ivory (for Botswana, Namibia, South Africa and Zimbabwe, whole tusks and pieces) subject to the following:
 - (i) only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin);

- (ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP17) concerning domestic manufacturing and trade;
 - (iii) not before the Secretariat has verified the prospective importing countries and the registered government-owned stocks;
 - (iv) raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa);
 - (v) in addition to the quantities agreed at CoP12, government-owned ivory from Botswana, Namibia, South Africa and Zimbabwe registered by 31 January 2007 and verified by the Secretariat may be traded and despatched, with the ivory in paragraph (g)(iv) above, in a single sale per destination under strict supervision of the Secretariat;
 - (vi) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and
 - (vii) the additional quantities specified in paragraph (g)(v) above shall be traded only after the Standing Committee has agreed that the above conditions have been met; and
- (h) no further proposals to allow trade in elephant ivory from populations already in Appendix II shall be submitted to the Conference of the Parties for the period from CoP14 and ending nine years from the date of the single sale of ivory that is to take place in accordance with provisions in paragraphs (g)(i), (g)(ii), (g)(iii), (g)(vi) and (g)(vii). In addition such further proposals shall be dealt with in accordance with Decisions 16.55 and 14.78 (Rev. CoP16).

On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries, or in the case of proven detrimental impacts of the trade on other elephant populations.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

¹⁰ Artificially propagated hybrids of the following genera are not subject to the provisions of the Convention, if conditions, as indicated under (a) and (b), are met: *Cymbidium*, *Dendrobium*, *Phalaenopsis* and *Vanda*:

- (a) Specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and
- (b) (i) when shipped in non-flowering state, the specimens must be traded in shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or
- (ii) when shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, e.g. labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the country of final processing. This should be clearly visible and allow easy verification.

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.
