ENDANGERED SPECIES (IMPORT AND EXPORT) ACT 2006 (AMENDMENT OF SCHEDULE) NOTIFICATION 2023

In exercise of the powers conferred by section 28 of the Endangered Species (Import and Export) Act 2006, the Minister for National Development makes the following Notification:

Citation and commencement

1. This Notification is the Endangered Species (Import and Export) Act 2006 (Amendment of Schedule) Notification 2023 and comes into operation on 23 February 2023.

Amendment of Schedule

2. In the Endangered Species (Import and Export) Act 2006 (called in this Notification the Principal Act), in the Schedule, under the heading “Interpretation of the Appendices” —

- (a) in paragraph 9, delete “in solid or liquid media.”;
- (b) in paragraph 12, replace sub-paragraph (h) with —
“(h) Ten (10) kg per shipment

For the term “10 kg per shipment”, the 10 kg limit should be interpreted as referring to the weight of wood of each individual annotated species of genus Dalbergia or Guibourtia present in the items in the shipment. The 10 kg limit is to be assessed only against the individual weights of the portions of wood of each individual annotated species contained in each item of the shipment, and not against the total weight of the shipment. The total weights present of each individual annotated species are considered individually to determine whether a CITES permit or certificate is required for each individual annotated species, and weights of different individual annotated species are not added together for this purpose.”; and

- (c) in paragraph 12(i), replace “*v-jointed, beaded or the like along any edges*” with “*rebated, chamfered, v-jointed, beaded, moulded, rounded or the like along any of its edges*”.
