No. S 766

FIRE SAFETY ACT (CHAPTER 109A)

FIRE SAFETY (FIRE CERTIFICATE — DESIGNATED BUILDINGS) NOTIFICATION 2020

ARRANGEMENT OF PARAGRAPHS

Paragraph

- 1. Citation and commencement
- 2. Application
- 3. Exempt buildings The Schedule

In exercise of the powers conferred by section 20(1) of the Fire Safety Act, the Minister for Home Affairs makes the following Notification:

Citation and commencement

1. This Notification is the Fire Safety (Fire Certificate — Designated Buildings) Notification 2020 and comes into operation on 14 September 2020.

Application

2. Every building in Part 2 of the Schedule is designated to be subject to section 20 of the Act.

Exempt buildings

3. Despite paragraph 2, none of the following buildings are designated to be subject to section 20 of the Act:

- (a) a building
 - (i) that is wholly or partly occupied by the Monetary Authority of Singapore or a Singapore public sector agency defined under section 2(1) of the Public Sector (Governance) Act 2018 (Act 5 of 2018); and
 - (ii) where a person may not enter, or move within, without being escorted at all times by a person authorised by an entity in sub-paragraph (i) occupying that building or a person authorised by an entity responsible for the security arrangements in that building;
- (b) a building declared as a prison or reformative training centre by the Minister for Home Affairs under section 3 of the Prisons Act (Cap. 247);
- (c) a building defined under sub-paragraph (i) of Article 1 of the First Schedule to the Diplomatic and Consular Relations Act (Cap. 82A);
- (*d*) a building defined under paragraph 1(*j*) of Article 1 of the Second Schedule to the Diplomatic and Consular Relations Act.

THE SCHEDULE

Paragraph 2

PART 1

DEFINITIONS

- 1. In this Schedule
 - "boarding premises" and "foreign employee" have the meanings given by section 2(1) of the Foreign Employee Dormitories Act 2015 (Act 3 of 2015);
 - "convalescent home" means a building that is used or intended to be used for the reception and lodging of, and the provision of nursing or rehabilitative care for, persons —
 - (*a*) who are suffering or convalescing from any sickness, injury, infirmity or incapacity; and
 - (b) who are unable to care for their own needs and safety without assistance from other persons,

and includes a disability home and a nursing home;

"element of structure" means ----

- (*a*) a member forming part of the structural frame of a building or any other beam or column, but not a member forming part of a roof structure only;
- (b) a load-bearing wall or load-bearing part of a wall;
- (c) a floor, including a compartment floor, other than the lowest floor (in contact with the ground) of a building;
- (d) a separating wall; or
- (e) a structure enclosing a protected shaft;
- "engineered timber building" means a building that is constructed using any permitted timber material, or a combination of any permitted timber material and other materials, as an element of structure, an external wall or a compartment wall of the building;
- "foreign employee dormitory" means boarding premises that provide accommodation to foreign employees, but does not include any premises specified in section 3(2) of the Foreign Employee Dormitories Act 2015;

THE SCHEDULE — continued

- "fully automated mechanised car park" means a building that is used as a car park where the parking and retrieving of vehicles is done by fully automated mechanical means;
- "habitable height", in relation to a building, means the height measured from the lowest level of a fire engine accessway or fire engine access road to the finished floor level of the highest habitable floor in that building;
- "HDB flat" means any flat, house or other building sold under Part IV or IVB of the Housing and Development Act (Cap. 129);

"hospital" means -

- (*a*) a building that is used or intended to be used for the reception, lodging, treatment and care of persons who require medical treatment; or
- (b) a convalescent home;

"industrial building" means a building that is used wholly or mainly for —

- (*a*) the manufacture of goods or materials or the subjection of goods or materials to any process, including any research or development for any manufacturing trade or business;
- (b) the purposes of any water, gas, telecommunication, electricity or other industrial undertaking, including research and development for any such industrial undertaking;
- (c) the inspection, assessment and servicing of vehicles;
- (d) the housing of computer systems and associated components; or
- (e) the storage, warehousing or deposit of goods and materials;
- "occupant load", in relation to a building, means the number of persons who may safely occupy the building at any one time, determined in accordance with Chapter 1 of the Fire Code;
- "permitted timber material" means any timber material described in the Fire Code as being permissible for use as an element of structure, an external wall or a compartment wall of a building;
- "residential building" means a building that is lawfully used or intended to be used for residential purposes.

THE SCHEDULE — continued

PART 2

BUILDINGS SUBJECT TO SECTION 20 OF ACT

1. A public building (except for a residential building) that has an occupant load of more than 200 persons, other than —

- (*a*) a serviced apartment with external corridors that comply with the requirements specified in Chapter 2 of the Fire Code;
- (b) a standalone carpark that complies with the requirements specified in Chapter 2 of the Fire Code; and
- (c) a hawker centre or wet market that is not fully enclosed on all sides.
- 2. An industrial building that
 - (a) has an occupant load of 1,000 persons or more;
 - (b) has a floor area or site area of 5,000 square metres or more; or
 - (c) has a habitable height of more than 24 metres.
- 3. A foreign employee dormitory that
 - (a) has an occupant load of 1,000 persons or more;
 - (b) has a floor area or site area of 5,000 square metres or more; or
 - (c) has a habitable height of more than 24 metres.
- 4. A hospital.
- 5. A residential building that
 - (a) has a habitable height of more than 24 metres;
 - (b) is installed with
 - (i) an automatic fire alarm system;
 - (ii) a sprinkler system; or
 - (iii) a wet riser system; and
 - (c) is not used or intended to be used as an HDB flat.

6. An engineered timber building (except a building that is used or intended to be used as an HDB flat) that is installed with any of the following:

- (a) an automatic fire alarm system;
- (b) an automatic sprinkler system;
- (c) an automatic smoke control system;

(d) any other automatic fire detection or suppression system intended to detect or control a fire automatically.

7. A fully automated mechanised car park that is installed with a fire protection system and meets any of the following conditions:

- (a) the total floor area of the car parking decks in the fully automated mechanised car park is more than 200 square metres;
- (b) the cubical extent of the fully automated mechanised car park (calculated in the manner prescribed in Chapter 9 of the Fire Code) is more than 1,400 cubic metres;
- (c) the parking height of the fully automated mechanised car park above ground (measured in the manner prescribed in Chapter 9 of the Fire Code) is more than 10 metres;
- (d) where any part of the parking levels is below ground, the total parking height of the fully automated mechanised car park (measured in the manner prescribed in Chapter 9 of the Fire Code) is more than 14 metres;
- (e) there are more than 2 parking levels below ground.

Made on 24 August 2020.

PANG KIN KEONG Permanent Secretary, Ministry of Home Affairs, Singapore.

[MHA 112/2/030; AG/LEGIS/SL/109A/2015/16 Vol. 1]
