PART IV

LIST OF PRESERVATIVES WHICH
COSMETIC PRODUCTS MAY CONTAIN

PART IV

PREAMBLE

1. Preservatives are substances which may be added to cosmetic products for the primary purpose of inhibiting the development of micro-organisms in such products.

2. The substances marked with the symbol (+) may also be added to cosmetic products in concentration other than those laid down in this Part for other purposes apparent from the presentation of the products, e.g. as deodorants in soaps or as anti-dandruff agents in shampoos.

3. Other substances used in the formulation of cosmetic products may also have anti-microbial properties and thus help in the preservation of the products, as, for instance, many essential oils and some alcohols. These substances are not included in this Part.

4. For the purposes of this Part:

— “Salts” is taken to mean: salts of the cations sodium, potassium, calcium, magnesium, ammonium, and ethanolamines; salts of the anions chloride, bromide, sulphate, acetate.

THIRD SCHEDULE — *continued*

— “Esters” is taken to mean: esters of methyl, ethyl, propyl, isopropyl, butyl, isobutyl, phenyl.

5. All finished products containing substances in this Part and which release formaldehyde (Entries 20, 21, 27, 30, 31, 33, 46, 49, 51 and 55) must be labelled with the warning “Contains formaldehyde.” where the concentration of formaldehyde in the finished product exceeds 0.05%.

LIST OF UV FILTERS WHICH COSMETIC
PRODUCTS MAY CONTAIN

1. For the purpose of the ASEAN Cosmetic Directive, UV filters are substances which, contained in cosmetic sunscreen products, are specifically intended to filter certain UV rays in order to protect the skin from certain harmful effects of these rays.

2. These UV filters may be added to other cosmetic products within the limits and under the conditions laid down in this Part.

THIRD SCHEDULE — *continued*

3. Other UV filters used in cosmetic products solely for the purpose of protecting the product against UV rays are not included in this list.

4. The following warning must be printed on the label of every cosmetic sunscreen product that is primarily for the purpose of sun protection:

“Do not stay too long in the sun, even while using a sunscreen product.”
