

PUBLIC UTILITIES ACT
(CHAPTER 261, SECTION 72)

PUBLIC UTILITIES (WATER SUPPLY) REGULATIONS

ARRANGEMENT OF REGULATIONS

PART I

PRELIMINARY

Regulation

1. Citation
2. Definitions
3. Board may adopt or issue standards, codes of practice or guidelines

PART II

WATER FITTINGS, WATER SERVICE INSTALLATIONS, ETC. — WATER
SUPPLIED BY BOARD

- 3A. Application of this Part
4. Requirements for installation, etc., of water fittings, etc.
5. Requirements for water fittings
6. Accessibility to water fittings
7. Requirements for installation of hot water apparatus
8. Supply of water fittings
9. Board may require testing of water fittings
10. Disconnection of disused water fittings
11. Continuous water supply
12. Interference with water supply
13. Maintenance of water service installation
14. Maintenance and security of storage tank
15. Board may require consumer to clean and repair water service installation

PART III

WATER FITTINGS, WATER SERVICE
INSTALLATIONS, ETC. — WATER SUPPLIED BY
APPROVED PERSONS

*Division 1 — Prescribed requirements
under section 42(1) of Act for approved persons*

Regulation

16. Application of this Division
17. Requirements for installation, etc., of water fittings, etc.
18. Requirements for water fittings
19. Accessibility to water fittings
20. Requirements for installation of hot water apparatus
21. Board may require testing of water fitting
22. Requirements in relation to disconnected water fitting
23. Maintenance of connecting pipes and water service installation
24. Maintenance and security of storage tank

Division 2 — Requirements for other persons

25. Application of this Division
26. Installation of water fitting, etc.
27. Accessibility to water fitting
28. Installation of hot water apparatus, etc.
29. Supply of water fittings to approved persons
30. Board may require testing of water fitting
31. Prohibition against tampering, etc.

PART IV

METERED WATER CONSUMPTION AND WATER CONSERVATION

34. Application of this Part
35. Supplies through meter
36. Responsibility for meters, etc.
37. Metered water consumption
38. Water meter reading
39. Hoses or sprinklers not to be used except in certain instances
40. Conservation of water and installation of water saving devices

PART IVAA

WATER EFFICIENCY

Division 1 — General

Regulation

40A. Interpretation of this Part

Division 2 — Restrictions on supply, etc., of specified water fittings

40AA. Restrictions on supply of specified water fittings

40AB. Restrictions on advertisements for supply of specified water fittings

40AC. Restrictions on supply of water fittings modified after registration

40AD. Restrictions relating to Water Efficiency Label

Division 3 — Administration and enforcement of this Part

40AE. Registration of suppliers and water fittings

40AF. Withdrawal or revocation of registration

40AG. Board may require specified water fittings for testing or analysis

40AH. Board may require recall of specified water fittings supplied

PART IVA

WATER EFFICIENCY MANAGEMENT PRACTICES

Division 1 — General

40B. Definitions for this Part

Division 2 — Specified consumers

40BA. Specified consumer

40BB. Submission of information and documents by specified consumer

Division 3 — Qualifying consumers

40C. Qualifying consumer

40CA. Appointed qualifying consumer

40D. Submission of information and documents by qualifying consumer

40E. Notification of ceasing to be qualifying consumer

40F. *[Deleted]*

40G. Board may ascertain whether consumer is qualifying consumer

40GA. Appointment of water efficiency manager

40H. Submission of water efficiency plan, etc.

Regulation

- 40I. Board may give directions in relation to submissions under this Part
- 40IA. Records to be kept by specified consumer
- 40J. Records to be kept by qualifying consumer
- 40K. Installation of private meter and measurement of water consumption
- 40L. Exceptions

PART V

MISCELLANEOUS

- 41. Board may waive requirements
 - 42. Manner of disconnection
 - 43. Board not liable for loss or damage
 - 44. Fire services
 - 45. Inspection
 - 46. Service of notices
 - 47. Penalty
 - First Schedule — Requirements for water fittings
 - Second Schedule
 - Third Schedule — Fees
 - Fourth Schedule — Water usage areas at which amount of water use is to be monitored
 - The Schedules
-

[22nd November 2002]

PART I

PRELIMINARY

Citation

1. These Regulations may be cited as the Public Utilities (Water Supply) Regulations.

Definitions

2. In these Regulations, unless the context otherwise requires —

“accredited laboratory” means a laboratory —

- (a) accredited under the Singapore Laboratory Accreditation Scheme (SAC-SINGLAS) administered by the Enterprise Singapore Board (established by section 3 of the Enterprise Singapore Board Act 2018 (Act 10 of 2018)); or

[S 164/2018 wef 01/04/2018]

- (b) recognised under a mutual recognition agreement or arrangement between Singapore and any other country;

[S 133/2017 wef 01/04/2017]

“authorised officer” means an officer of the Board authorised in that behalf by the Board;

“backflow” means flow upstream, that is in a direction contrary to the intended normal direction of flow within or from a water fitting;

“British Standard” means a standard or specification issued by the British Standards Institution;

“building” means any structure (including a floating structure) whether of a permanent character or not, and whether movable or immovable, and, without prejudice to the generality of the foregoing, includes any caravan, vessel, boat or houseboat;

[Deleted by S 164/2018 wef 01/04/2018]

“consumer” includes —

- (a) any person supplied or applying to be supplied with water by the Board;
- (b) any person otherwise liable for the payment of water rates, charges or rent; and
- (c) any owner or occupier of the premises supplied or to be supplied with water by the Board;

“corrosion-resisting material” means any material which is highly resistant to any corrosive action to which it is likely to be subjected in the circumstances in which it is used;

“distributing pipe” means any pipe (other than an overflow pipe or a flush pipe) conveying water from a storage tank under pressure by gravity or a boosting system from such tank;

“float-operated valve” means a valve for controlling the flow of water into a storage tank or flushing cistern, the valve being operated by the vertical movement of a float riding on the surface of the water;

“install”, in relation to a water fitting, apparatus, pump, hot water apparatus or any other article or device to which these Regulations apply, includes to arrange or connect;

“master meter” means a meter registering water all or part of which is subsequently registered by one or more sub-meters;

[Deleted by S 164/2018 wef 01/04/2018]

“meter position” means the position where a meter or master meter (not being a sub-meter) is installed;

“meter reader” means an employee or an agent of the Board who is authorised to read any meter;

[Deleted by S 153/2019 wef 25/03/2019]

“NEWater” means NEWater supplied through the water reticulation system of the Board to persons who have entered into an agreement with the Board for the supply of such water;

[S 153/2019 wef 25/03/2019]

[Deleted by S 164/2018 wef 01/04/2018]

“service pipe” means any pipe or part thereof which is downstream to the meter position and is meant for supplying water from a water main to any premises and is subject to water pressure from that main, or would be so subject but for the closing of some stop-valve;

“Singapore Standard” means a standard or specification issued by the Enterprise Singapore Board;

[S 164/2018 wef 01/04/2018]

“stop-valve” means any device (including a stop-cock or stop-tap) other than a draw-off tap, for stopping at will the flow of water in a pipe;

[Deleted by S 164/2018 wef 01/04/2018]

“sub-meter” means any meter owned and maintained by the Board which registers all or part of any water which has already been metered since leaving the water main;

“warning pipe” means an overflow pipe so fixed that its outlet, whether inside or outside a building, is in a conspicuous position where the discharge of any water therefrom can be readily seen;

“Water Efficiency Label” means a label referred to in regulation 40A.

[S 703/2008 wef 01/07/2009]

[S 164/2018 wef 01/04/2018]

[Deleted by S 164/2018 wef 01/04/2018]

[Deleted by S 164/2018 wef 01/04/2018]

Board may adopt or issue standards, codes of practice or guidelines

3.—(1) The Board may, from time to time, adopt or issue any standard, code of practice or guidelines on water supply, water services, water conservation, plumbing practices, maintenance of water service installations, and any requirements (including standards, designs, specifications and procedures) relating to any type of water fitting or water service installation.

(2) Where any requirement of any standard, code of practice or guidelines adopted or issued by the Board conflicts with any specific requirement specified in these Regulations, the latter requirement shall prevail.

(3) The Board shall cause all standards, codes of practice or guidelines adopted or issued by it to be published in such a manner as will give persons to whom the standards, codes of practice or guidelines relate adequate notice of the requirements specified therein.

PART II

WATER FITTINGS, WATER SERVICE INSTALLATIONS, ETC. — WATER SUPPLIED BY BOARD

[S 153/2019 wef 25/03/2019]

Application of this Part

3A. This Part applies in relation to every water fitting, apparatus, pump, water service installation, hot water apparatus, water heater or any other thing mentioned in this Part, used for the supply of water by the Board.

[S 153/2019 wef 25/03/2019]

Requirements for installation, etc., of water fittings, etc.

4.—(1) No person shall install, alter, repair or use, or cause or permit to be or to remain installed, altered, repaired or used, any water fitting, apparatus or pump in such a manner that —

- (a) affects or is likely to affect the quality, pressure or efficient supply of water by the Board (including in any water main or other pipe of the Board);
- (b) causes or permits, or is likely to cause or permit, waste, undue consumption, misuse, erroneous measurement or contamination of water supplied by the Board or reverberation in pipes; or
- (c) contravenes any applicable requirement specified in the First Schedule or any standard, code of practice or guidelines adopted or issued by the Board under regulation 3.

(2) No person shall install, or cause or permit to be or to remain installed, any water fitting, apparatus or pump which —

- (a) is damaged, worn or faulty;
- (b) for any reason —
 - (i) affects or is likely to affect the quality, pressure or efficient supply of water by the Board (including in any water main or other pipe of the Board); or
 - (ii) causes or permits, or is likely to cause or permit, waste, undue consumption, misuse, erroneous measurement or contamination of water supplied by the Board or reverberation in pipes; or
- (c) contravenes any applicable requirement specified in regulation 5, the First Schedule or any standard, code of practice or guidelines adopted or issued by the Board under regulation 3.

(3) No person shall install, alter, repair or use, or cause or permit to be or to remain installed, altered, repaired or used, any water service installation or part thereof intended to receive or convey only piped water suitable for drinking supplied by the Board in such a manner that it receives or conveys any water other than piped water suitable for drinking supplied by the Board.

[S 153/2019 wef 25/03/2019]

(4) Any person who contravenes paragraph (1), (2) or (3) shall be guilty of an offence.

Requirements for water fittings

- 5.—**(1) Every water fitting shall be —
- (a) of an appropriate quality and standard;
 - (b) suitable for the circumstances in which it is used;
 - (c) if used for the conveyance of piped water suitable for drinking supplied by the Board, fit for such conveyance;
- [S 153/2019 wef 25/03/2019]*
- (d) except in the case of exposed terminal fittings such as taps, resistant to dezincification if such fitting is made of brass; and

(e) capable of withstanding a hydrostatic field test pressure of not less than 12 bars or an internal water pressure of not less than 1½ times the maximum pressure to which the fitting is designed to be subjected in operation, whichever is the greater.

(2) For the purposes of paragraph (1)(a), a water fitting is of an appropriate quality and standard only if it conforms to —

(a) such standard as the Board may stipulate from time to time for compliance, being —

(i) an appropriate Singapore Standard;

(ii) an appropriate British Standard; or

(iii) some other standard which provides an equivalent or higher level of protection and performance; and

(b) such other requirements as the Board may stipulate from time to time for compliance.

(3) For the purposes of paragraph (2)(a), a water fitting shall be treated as conforming with a standard stipulated by the Board if it is certified or tested as complying with such standard by —

(a) an accredited laboratory; or

[S 133/2017 wef 01/04/2017]

(b) such other testing laboratory as the Board may allow.

[S 133/2017 wef 01/04/2017]

(4) Any person who wishes to supply or install any water fitting for which no standard or requirement has been stipulated by the Board under paragraph (2) shall submit a request to the Board for the Board to stipulate the appropriate standard and requirement for that fitting for compliance.

Accessibility to water fittings

6.—(1) No person shall install, or cause or permit to be or to remain installed, any water fitting which has to be operated inside or outside a building in such a position as to prevent reasonable access to the water fitting for purposes of examination, repair and replacement, unless such access is not reasonably practicable.

- (2) Nothing in paragraph (1) shall prohibit —
- (a) the enclosing of any pipe or fitting in a chase or duct, or in plastering, if the pipe or fitting is reasonably accessible for the purposes referred to in paragraph (1); or
 - (b) the installation of any pipe in a pipe sleeve or duct located under or within a solid floor if the pipe can be readily removed from such sleeve or duct and replaced.
- (3) Any person who contravenes paragraph (1) shall be guilty of an offence.

Requirements for installation of hot water apparatus

7.—(1) No person shall install, or cause or permit to be or to remain installed, any hot water apparatus unless the hot water apparatus is fitted with an adequate device or constructed —

- (a) so as to prevent any backflow of water to the hot water apparatus or any pipe conveying water supplied by the Board; and
- (b) so as not to cause wastage or contamination of water or to have any adverse effect on the water.

(2) Where a water heater is installed on any premises, no person shall connect, or cause or permit to be or to remain connected, any mixing valve, pipe or other water fitting in which hot water and cold water are mixed, so as to mix —

- (a) water supplied from the water heater connected directly to a service pipe, with cold water not supplied directly from a service pipe; or
- (b) water supplied from the water heater not connected directly to a service pipe, with cold water supplied from a service pipe.

(3) Any person who contravenes paragraph (1) or (2) shall be guilty of an offence.

Supply of water fittings

8.—(1) No person shall —

(a) supply; or

(b) offer, display or advertise for supply,

any water fitting for use in Singapore unless —

(i) the water fitting complies with —

(A) regulation 5;

(B) paragraphs 1, 2, 5, 7, 8, 9, 10, 11(1)(a) and (4), 13(1) and (3), 14, 15, 18(1), (2) and (3) and 19 of the First Schedule; and

[S 703/2008 wef 01/07/2009]

[S 192/2019 wef 01/04/2019]

(C) such standard, code of practice or guidelines adopted or issued by the Board under regulation 3, as the Board may specify; and

(ii) any standard referred to in regulation 5(2)(a) or (4) applicable to that water fitting is appropriately indicated on the water fitting or on the packaging for that water fitting.

(2) Any person who contravenes paragraph (1) shall, if the Board so requires, recall all water fittings supplied by him in contravention of that paragraph at his own cost and expense.

(3) Any person who contravenes paragraph (1) or (2) shall be guilty of an offence.

Board may require testing of water fittings

9.—(1) The Board may, by notice in writing, require any person who —

(a) installs or offers or advertises to install; or

(b) supplies or offers, displays or advertises for supply,

any water fitting for use in any water service installation to have a sample of the water fitting tested or examined by an accredited

laboratory or such other testing laboratory as the Board may allow, within the time specified in the notice.

[S 112/2019 wef 01/03/2019]

[S 153/2019 wef 25/03/2019]

(2) Any costs and expenses incurred for the testing or examination of a water fitting (including fees payable to the accredited laboratory or testing laboratory) shall be borne by the person referred to in paragraph (1).

[S 112/2019 wef 01/03/2019]

(3) A person who receives a notice referred to in paragraph (1) shall not —

(a) install or offer or advertise to install; or

(b) supply or offer, display or advertise for supply,

any water fitting referred to in such notice unless and until the Board informs the person that the Board is satisfied that the water fitting is fit for use in a water service installation.

[S 153/2019 wef 25/03/2019]

(4) Where the Board informs the person who receives a notice mentioned in paragraph (1) that the Board is not satisfied that the water fitting is fit for use in a water service installation, the person shall immediately stop installing, supplying, or offering, displaying or advertising to install or for supply, such water fitting in Singapore and shall, if the Board so requires, recall all such water fittings already installed or supplied at his own cost and expense.

[S 153/2019 wef 25/03/2019]

(5) Any person who —

(a) fails to comply with a notice served on him under paragraph (1); or

(b) contravenes paragraph (3) or (4),

shall be guilty of an offence.

Disconnection of disused water fittings

10.—(1) If a water fitting is disconnected and is not, within 28 days of such disconnection, reconnected or replaced, the consumer shall engage a licensed plumber to disconnect so much of any pipe which conveyed water supplied by the Board to that fitting and is not required to convey the water to any other fitting.

[S 164/2018 wef 01/04/2018]

(2) Any consumer who fails to comply with paragraph (1) —

(a) shall be guilty of an offence; and

(b) may have his water supply disconnected by the Board.

Continuous water supply

11.—(1) The Board may, as it thinks fit, require an owner, a developer or a consumer to ensure that a water service installation on any premises (including a multi-storey building and a building on high elevation) is provided with adequate water storage and such ancillary equipment as may be necessary for the purpose of maintaining a continuous and steady supply of water within the premises.

(2) Any owner, developer or consumer who fails to comply with the requirement of the Board under paragraph (1) shall be guilty of an offence.

(3) Without prejudice to paragraph (1), a consumer who wishes to have a continuous water supply shall ensure that his water service installation is provided with adequate water storage and such ancillary equipment as may be necessary to maintain a continuous and steady supply of water within the premises.

Interference with water supply

12.—(1) Where a water service installation connects a master meter to one or more sub-meters and is being used to convey water supplied by the Board to any premises through such sub-meter, any person who cuts off, disconnects, restricts, reduces or adversely affects the pressure or quality of the water supply to those premises by interfering with such water service installation shall be guilty of an

offence unless he proves to the satisfaction of the Board that the interference was for the purpose of maintaining that water service installation under regulation 13 or 14.

(2) Where any person has contravened paragraph (1), the Board may carry out such work on the water service installation as may be necessary to restore or normalise the supply of water to those premises and recover its costs and expenses reasonably incurred in carrying out such works from that person.

(3) Any person who tampers with a water main, or any connecting pipe, water fitting or apparatus owned or maintained by the Board, shall be guilty of an offence.

(4) Any person who, without the consent of the Board, attaches any pipe or apparatus to a water main, or any connecting pipe, water fitting or apparatus owned or maintained by the Board, shall be guilty of an offence unless he proves that he did not know or had no reason to suspect that the pipe or apparatus had been so attached.

Maintenance of water service installation

13.—(1) All connecting pipes shall be maintained by the Board.

(2) A water service installation shall be maintained —

(a) for so long as such water service installation is connected to receive water supplied by the Board; and

(b) by the following persons:

(i) in respect of the water service installation between the master meter and the sub-meter, by the consumer who is liable to pay for the consumption registered by the master meter;

(ii) in respect of the water service installation after the sub-meter, by the consumer who is liable to pay for the consumption registered by the sub-meter; and

(iii) in respect of the water service installation after the meter (not being a master meter or a sub-meter), by the consumer who is liable to pay for the consumption registered by the meter.

(3) Any person who is required under paragraph (2)(b) to maintain any part of a water service installation shall —

- (a) maintain and ensure the security of that part of the water service installation in accordance with these Regulations and any applicable requirement specified in any standard, code of practice or guidelines adopted or issued by the Board under regulation 3; and
- (b) notify the Board immediately of any contamination of water in that part of the water service installation which comes to his knowledge.

(4) Any person who fails to comply with paragraph (3) shall be guilty of an offence.

Maintenance and security of storage tank

14.—(1) Subject to paragraph (4), any consumer responsible for the maintenance of any part of a water service installation having a storage tank shall engage, not less frequently than once every 12 months, a licensed plumber to inspect, and where necessary to clean and disinfect, the storage tank and certify that —

- (a) the storage tank is fit and safe for the storage of piped water suitable for drinking (excluding NEWater);
[S 153/2019 wef 25/03/2019]
- (b) the water contained in the storage tank is free from contamination or pollution and that there is no likelihood of such contamination or pollution;
- (c) water samples taken from the storage tank pass the appropriate chemical and bacteriological examinations;
- (d) the storage tank is properly maintained; and
- (e) there is no leakage and no likelihood of leakage in the water service installation, including the storage tank.
[S 164/2018 wef 01/04/2018]

(2) Subject to paragraph (4), any consumer responsible for the maintenance of any part of a water service installation having a

storage tank from which piped water suitable for drinking (excluding NEWater) is drawn, shall ensure that —

- (a) no person, except with the authority of the consumer, has access to —
 - (i) the storage tank (including any tap fitted to the storage tank) and its ancillary equipment; or
 - (ii) the premises where the storage tank and its ancillary equipment are located;
- (b) the storage tank (including any tap fitted to the storage tank) and its ancillary equipment, and the premises where the storage tank and its ancillary equipment are located, are kept properly locked at all times;
- (c) checks are conducted regularly for the purpose of ascertaining whether sub-paragraph (b) is being complied with;
- (d) proper records are kept of —
 - (i) persons granted access to the storage tank (including any tap fitted to the storage tank) and its ancillary equipment, or the premises where the storage tank and its ancillary equipment are located, under sub-paragraph (a); and
 - (ii) checks conducted under sub-paragraph (c),and that such records are made available for inspection by the authorised officer; and
- (e) the Board is notified immediately of any unauthorised access to the storage tank (including any tap fitted to the storage tank) or its ancillary equipment which comes to his knowledge.

[S 153/2019 wef 25/03/2019]

(3) Any consumer who contravenes paragraph (1) or (2) shall be guilty of an offence.

(4) Paragraphs (1) and (2) shall not apply to a consumer responsible for the maintenance of any water service installation having any

storage tank in residential premises which do not take their water supply through a master meter.

[S 164/2018 wef 01/04/2018]

[S 164/2018 wef 01/04/2018]

Board may require consumer to clean and repair water service installation

15.—(1) Where, in the opinion of the Board, the water service installation of a consumer or any part thereof —

- (a) has not been properly maintained;
- (b) is causing or likely to cause wastage, pollution or contamination of the water supplied by the Board;
- (c) is having or likely to have an adverse effect on the pressure or efficiency of the supply of water; or
- (d) is leaking or likely to result in leakage of any part of the water service installation,

the Board may, by notice in writing, require the consumer to clean, repair, replace or otherwise deal with that water service installation within such period as may be specified in the notice.

(2) All costs and expenses incurred by the consumer in complying with such notice shall be borne by the consumer.

(3) Where a consumer fails to comply with a notice served on him under paragraph (1) —

- (a) the consumer shall be guilty of an offence; and
- (b) the Board may, at the expiration of the period specified in the notice —
 - (i) discontinue the supply of water to the consumer by severing or disconnecting the service pipe or by any other means specified in regulation 42; or
 - (ii) engage a competent person to execute the works specified in the notice and recover from the consumer the costs and expenses reasonably incurred by the Board in so doing.

(4) Any person who prevents or obstructs the discontinuance of the supply of water or execution of work referred to in paragraph (3)(b) shall be guilty of an offence.

PART III

WATER FITTINGS, WATER SERVICE INSTALLATIONS, ETC. — WATER SUPPLIED BY APPROVED PERSONS

[S 153/2019 wef 25/03/2019]

Division 1 — Prescribed requirements under section 42(1) of Act for approved persons

Application of this Division

16. This Division applies, for the purposes of section 42(1) of the Act, to every approved person in relation to every water fitting, apparatus, pump, water service installation, hot water apparatus, water heater or any other thing mentioned in this Division used by the approved person to supply piped water suitable for drinking.

[S 153/2019 wef 25/03/2019]

Requirements for installation, etc., of water fittings, etc.

17.—(1) An approved person must not —

- (a) install, alter, repair or use; or
- (b) cause or permit to be or to remain installed, altered, repaired or used,

any water fitting, apparatus or pump in such a manner that —

- (c) affects or is likely to affect the quality of the piped water suitable for drinking supplied by the approved person (including in any water main or other pipe of the approved person);
- (d) causes or permits, or is likely to cause or permit, contamination of the piped water suitable for drinking supplied by the approved person; or

(e) does not conform to any applicable requirement specified in the First Schedule or any standard, code of practice or guidelines adopted or issued by the Board under regulation 3.

(2) An approved person must not install, or cause or permit to be or to remain installed, any water fitting, apparatus or pump which —

(a) is damaged, worn or faulty;

(b) for any reason —

(i) affects or is likely to affect the quality of the piped water suitable for drinking supplied by the approved person (including in any water main or other pipe of the approved person); or

(ii) causes or permits, or is likely to cause or permit, contamination of the piped water suitable for drinking supplied by the approved person; or

(c) does not conform to any applicable requirement specified in regulation 18, the First Schedule or any standard, code of practice or guidelines adopted or issued by the Board under regulation 3.

(3) Where a water service installation, or any part of the water service installation, is intended only to receive or convey the approved person's supply of piped water suitable for drinking, the approved person must not —

(a) install, alter, repair or use; or

(b) cause or permit to be or to remain installed, altered, repaired or used,

the water service installation or any part of the water service installation, in such a manner that it receives or conveys any other water.

[S 153/2019 wef 25/03/2019]

Requirements for water fittings

18.—(1) An approved person must ensure that every water fitting is —

- (a) of an appropriate quality and standard;
- (b) suitable for the circumstances in which it is used;
- (c) fit for the conveyance of piped water suitable for drinking;
- (d) except in the case of exposed terminal fittings such as taps, resistant to dezincification if such fitting is made of brass; and
- (e) capable of withstanding a hydrostatic field test pressure of not less than 12 bars or an internal water pressure of not less than 1½ times the maximum pressure to which the fitting is designed to be subjected in operation, whichever is the greater.

(2) For the purposes of paragraph (1)(a), a water fitting is of an appropriate quality and standard only if it conforms to —

- (a) such standard as the Board may stipulate from time to time for compliance, being —
 - (i) an appropriate Singapore Standard;
 - (ii) an appropriate British Standard; or
 - (iii) some other standard which provides an equivalent or higher level of protection and performance; and
- (b) such other requirements as the Board may stipulate from time to time for compliance.

(3) For the purposes of paragraph (2)(a), a water fitting is to be treated as conforming with a standard stipulated by the Board if it is certified or tested as complying with such standard by —

- (a) an accredited laboratory; or
- (b) such other testing laboratory as the Board may allow.

(4) An approved person who wishes to install any water fitting for which no standard or requirement has been stipulated by the Board under paragraph (2) must submit a request to the Board for the Board to stipulate the appropriate standard and requirement for that fitting for compliance.

[S 153/2019 wef 25/03/2019]

Accessibility to water fittings

19.—(1) An approved person must not install, or cause or permit to be or to remain installed, a water fitting in such a position as will prevent reasonable access to the water fitting for purposes of examination, repair and replacement.

(2) Paragraph (1) does not apply if it is not reasonably practicable to provide the reasonable access.

(3) Nothing in paragraph (1) prohibits —

- (a) the enclosing of any pipe or fitting in a chase or duct, or in plastering, if the pipe or fitting is reasonably accessible for the purposes mentioned in paragraph (1); or
- (b) the installation of any pipe in a pipe sleeve or duct located under or within a solid floor if the pipe can be readily removed from such sleeve or duct and replaced.

[S 153/2019 wef 25/03/2019]

Requirements for installation of hot water apparatus

20.—(1) An approved person must not install, or cause or permit to be or to remain installed, any hot water apparatus unless the hot water apparatus is fitted with an adequate device or constructed —

- (a) so as to prevent any backflow of piped water suitable for drinking to —
 - (i) the hot water apparatus; or
 - (ii) any pipe conveying piped water suitable for drinking supplied by the approved person; and
- (b) so as not to cause any contamination, or any other adverse effect on the quality, of any piped water suitable for drinking supplied by the approved person.

(2) Where an approved person installs any water heater on the approved person's premises to heat the approved person's supply of piped water suitable for drinking, the approved person must not connect, or cause or permit to be or to remain connected, any mixing valve, pipe or other water fitting in which hot water and cold water are mixed, so as to mix —

- (a) water supplied from the water heater connected directly to a service pipe, with cold water not supplied directly from a service pipe; or
- (b) water supplied from the water heater not connected directly to a service pipe, with cold water supplied from a service pipe.

[S 153/2019 wef 25/03/2019]

Board may require testing of water fitting

21.—(1) The Board may, by notice in writing, require an approved person to have a sample of any water fitting for use in any water service installation tested or examined by an accredited laboratory or such other testing laboratory as the Board may allow, within the time specified in the notice.

(2) Any costs and expenses incurred for the testing or examination of a water fitting (including fees payable to the accredited laboratory or testing laboratory) must be borne by the approved person.

(3) An approved person who receives a notice mentioned in paragraph (1) must not install any water fitting mentioned in the notice unless and until the Board informs the approved person that the Board is satisfied that the water fitting is fit for use in a water service installation.

(4) Where the Board informs the approved person who receives the notice mentioned in paragraph (1) that the Board is not satisfied that the water fitting is fit for use in a water service installation, the approved person —

- (a) must immediately stop installing such water fitting in Singapore; and
- (b) must, if the Board so requires, remove all such water fittings already installed at the approved person's own cost and expense.

[S 153/2019 wef 25/03/2019]

Requirements in relation to disconnected water fitting

22. If a water fitting is disconnected and is not, within 28 days after such disconnection, reconnected or replaced, the approved person must engage a licensed plumber to disconnect a pipe or any part of a pipe that —

- (a) conveyed piped water suitable for drinking supplied by the approved person to that disconnected water fitting; and
- (b) is not required to convey such piped water suitable for drinking to any other fitting.

[S 153/2019 wef 25/03/2019]

Maintenance of connecting pipes and water service installation

23.—(1) An approved person must maintain all connecting pipes used by the approved person to supply piped water suitable for drinking.

(2) An approved person must —

- (a) maintain, and ensure the security of, every water service installation in accordance with these Regulations and any applicable requirement specified in any standard, code of practice or guidelines adopted or issued by the Board under regulation 3; and
- (b) notify the Board immediately of any contamination of water in the water service installation which comes to the approved person's knowledge.

[S 153/2019 wef 25/03/2019]

Maintenance and security of storage tank

24.—(1) This regulation applies to an approved person who uses a water service installation with a storage tank to supply piped water suitable for drinking.

(2) An approved person must engage, at least once every 12 months, a licensed plumber to do all of the following:

- (a) inspect the storage tank;
- (b) where necessary, clean and disinfect the storage tank;

- (c) certify that —
 - (i) the storage tank is fit and safe for the storage of piped water suitable for drinking;
 - (ii) the water contained in the storage tank is free from contamination or pollution, and there is no likelihood of such contamination or pollution;
 - (iii) water samples taken from the storage tank pass the appropriate chemical and bacteriological examinations; and
 - (iv) the storage tank is properly maintained.
- (3) An approved person must ensure that —
 - (a) no person, except with the authority of the approved person, has access to —
 - (i) the storage tank (including any tap fitted to the storage tank) and its ancillary equipment; or
 - (ii) the premises where the storage tank and its ancillary equipment are located;
 - (b) the storage tank (including any tap fitted to the storage tank) and its ancillary equipment, and the premises where the storage tank and its ancillary equipment are located, are kept properly locked at all times;
 - (c) checks are conducted regularly for the purpose of ascertaining whether sub-paragraph (b) is being complied with;
 - (d) proper records are kept of —
 - (i) persons granted access under sub-paragraph (a) to the storage tank (including any tap fitted to the storage tank) and its ancillary equipment, or the premises where the storage tank and its ancillary equipment are located; and
 - (ii) checks conducted under sub-paragraph (c),

and that such records are made available for inspection by the authorised officer; and

- (e) the Board is notified immediately of any unauthorised access to the storage tank (including any tap fitted to the storage tank) or its ancillary equipment which comes to the approved person's knowledge.

[S 153/2019 wef 25/03/2019]

Division 2 — Requirements for other persons

Application of this Division

25. This Division applies to any person (other than an approved person) in relation to any water fitting, apparatus, pump, water service installation, hot water apparatus, water heater or any other thing mentioned in this Division used by the approved person for the supply of piped water suitable for drinking.

[S 153/2019 wef 25/03/2019]

Installation of water fitting, etc.

26.—(1) A person must not install, alter, repair or use any water fitting, apparatus or pump in such a manner that —

- (a) affects or is likely to affect the quality of any piped water suitable for drinking supplied by an approved person (including in any water main or other pipe of the approved person);
- (b) causes or permits, or is likely to cause or permit, contamination of any piped water suitable for drinking supplied by an approved person; or
- (c) the water fitting, apparatus or pump, when used by the approved person to supply piped water suitable for drinking, does not conform to any applicable requirement specified in the First Schedule or any standard, code of practice or guidelines adopted or issued by the Board under regulation 3.

(2) A person must not install any water fitting, apparatus or pump which —

- (a) is damaged, worn or faulty;
- (b) for any reason —
 - (i) affects or is likely to affect the quality of any piped water suitable for drinking supplied by an approved person (including in any water main or other pipe of the approved person); or
 - (ii) causes or permits, or is likely to cause or permit, contamination of any piped water suitable for drinking supplied by an approved person; or
- (c) does not conform to any applicable requirement specified in regulation 18, the First Schedule or any standard, code of practice or guidelines adopted or issued by the Board under regulation 3.

(3) Where a water service installation or any part of a water service installation is intended only to receive or convey an approved person's supply of piped water suitable for drinking, a person must not install, alter, repair or use the water service installation or any part of the water service installation, in such a manner that it receives or conveys any other water.

(4) Any person who contravenes paragraph (1), (2) or (3) shall be guilty of an offence.

[S 153/2019 wef 25/03/2019]

Accessibility to water fitting

27.—(1) A person must not install a water fitting in such a position as will prevent reasonable access to the water fitting for purposes of examination, repair and replacement.

(2) Paragraph (1) does not apply if it is not reasonably practicable to provide the reasonable access.

(3) Nothing in paragraph (1) prohibits —

- (a) the enclosing of any pipe or fitting in a chase or duct, or in plastering, if the pipe or fitting is reasonably accessible for the purposes mentioned in paragraph (1); or

(b) the installation of any pipe in a pipe sleeve or duct located under or within a solid floor if the pipe can be readily removed from such sleeve or duct and replaced.

(4) Any person who contravenes paragraph (1) shall be guilty of an offence.

[S 153/2019 wef 25/03/2019]

Installation of hot water apparatus, etc.

28.—(1) A person must not install any hot water apparatus unless the hot water apparatus is fitted with an adequate device or constructed —

(a) so as to prevent any backflow of piped water suitable for drinking to —

(i) the hot water apparatus; or

(ii) any pipe conveying piped water suitable for drinking supplied by the approved person; and

(b) so as not to cause any contamination, or any other adverse effect on the quality, of any piped water suitable for drinking supplied by the approved person.

(2) Where a person installs any water heater on the approved person's premises to heat the approved person's supply of piped water suitable for drinking, the person must not connect any mixing valve, pipe or other water fitting in which hot water and cold water are mixed, so as to mix —

(a) water supplied from the water heater connected directly to a service pipe, with cold water not supplied directly from a service pipe; or

(b) water supplied from the water heater not connected directly to a service pipe, with cold water supplied from a service pipe.

(3) Any person who contravenes paragraph (1) or (2) shall be guilty of an offence.

[S 153/2019 wef 25/03/2019]

Supply of water fittings to approved persons

29.—(1) A person must not —

(a) supply; or

(b) offer, display or advertise for supply,

any water fitting for use in Singapore unless —

(c) the water fitting complies with —

(i) regulation 18;

(ii) paragraphs 1, 2, 5, 7, 8, 9, 10, 11(1)(a) and (4), 13(1) and (3), 14, 15, 18(1), (2) and (3) and 19 of the First Schedule; and

[S 192/2019 wef 01/04/2019]

(iii) such standard, code of practice or guidelines adopted or issued by the Board under regulation 3, as the Board may specify; and

(d) any standard referred to in regulation 18(2)(a) or (4) applicable to that water fitting is appropriately indicated on the water fitting or on the packaging for that water fitting.

(2) Any person who contravenes paragraph (1) must, if the Board so requires, recall all water fittings supplied by the person in contravention of that paragraph at the person's own cost and expense.

(3) Any person who contravenes paragraph (1) or (2) shall be guilty of an offence.

[S 153/2019 wef 25/03/2019]

Board may require testing of water fitting

30.—(1) The Board may, by notice in writing, require any person who —

(a) installs or offers or advertises to install; or

(b) supplies or offers, displays or advertises for supply,

any water fitting for use in any water service installation to have a sample of the water fitting tested or examined by an accredited

laboratory or such other testing laboratory as the Board may allow, within the time specified in the notice.

(2) Any costs and expenses incurred for the testing or examination of a water fitting (including fees payable to the accredited laboratory or testing laboratory) must be borne by the person mentioned in paragraph (1).

(3) A person who receives a notice mentioned in paragraph (1) must not —

(a) install or offer or advertise to install; or

(b) supply or offer, display or advertise for supply,

any water fitting mentioned in the notice unless and until the Board informs the person that the Board is satisfied that the water fitting is fit for use in a water service installation.

(4) Where the Board informs the person who receives a notice mentioned in paragraph (1) that the Board is not satisfied that the water fitting is fit for use in a water service installation, the person —

(a) must immediately stop installing, supplying, or offering, displaying or advertising to install or for supply, such water fitting in Singapore; and

(b) must, if the Board so requires, recall all such water fittings already installed or supplied at the person's own cost and expense.

(5) Any person who —

(a) fails to comply with a notice served on the person under paragraph (1); or

(b) contravenes paragraph (3) or (4),

shall be guilty of an offence.

[S 153/2019 wef 25/03/2019]

Prohibition against tampering, etc.

31.—(1) A person must not tamper or otherwise interfere with any water service installation used by an approved person for the supply of piped water suitable for drinking, in a manner that causes, or is

likely to cause, any contamination or other adverse effect on the quality of such water.

(2) Any person who contravenes paragraph (1) shall be guilty of an offence.

(3) It is a defence to any prosecution for an offence under paragraph (2) if the accused proves, on a balance of probabilities, that the accused interfered with the water service installation solely for the purpose of maintaining the water service installation on behalf of the approved person.

[S 153/2019 wef 25/03/2019]

PART IV

METERED WATER CONSUMPTION AND WATER CONSERVATION

Application of this Part

34. This Part applies in relation to water supplied by the Board.

[S 153/2019 wef 25/03/2019]

Supplies through meter

35. No supply of water shall, except with the consent of the Board, be given otherwise than through a meter.

Responsibility for meters, etc.

36.—(1) Every meter shall —

- (a) be fixed and maintained by the Board; and
- (b) remain the property of the Board.

(2) The Board may determine the number of meters and sub-meters and the sizes thereof which shall be installed in any premises, and where the premises comprises 2 or more separate units, the Board may require the owner or occupier of each unit to construct or alter the plumbing in such a manner as to enable the Board to install a separate meter in each unit.

(3) The Board may, in its discretion, change a meter at any time.

- (4) No person shall —
- (a) construct, or permit or suffer to be constructed, any building over any meter;
 - (b) place, stack or store, or permit or suffer to be placed, stacked or stored, any material upon or over any meter; or
 - (c) do or permit or suffer to be done any act, matter or thing whereby inspection of any meter shall be interfered with, prevented, obstructed or in any way rendered difficult.
- (5) Any person who contravenes paragraph (4) shall be guilty of an offence.
- (6) The consumer shall pay to the Board the value of any loss or damage if a meter installed within his premises is —
- (a) wrongfully opened up;
 - (b) damaged or broken in whole or in part;
 - (c) interfered with in such a way as to falsify its registration or impair its efficiency; or
 - (d) removed.
- (7) The consumer shall immediately notify the Board if the meter is stolen or damaged.
- (8) If the consumer disputes the accuracy of the meter which measures his water supply, the meter shall, on a written request by the consumer to the Board, be removed and tested.
- (9) The consumer or any person appointed by him may be present when the meter is tested.
- (10) The results of the test shall be binding on the Board and the consumer.
- (11) [*Deleted by S 97/2005 wef 01/03/2005*]
- (12) [*Deleted by S 97/2005 wef 01/03/2005*]
- (13) A meter shall be considered to be correct when its inaccuracy does not exceed 3%.

(14) Where a meter is found to register inaccurately, the Board shall charge the consumer on the basis of the average consumption registered by the meter during the 3 months preceding the month when the meter was found to be inaccurate or on such other basis as the Board or the agent of the Board may determine to be representative of the usual consumption of the consumer.

(15) The Board shall charge the fee specified in the Third Schedule for fixing a meter and turning on a supply, or for turning on a supply for an existing service reconnection due to a default in the payment of bills issued under an agreement for the supply of water by the Board.

[S 703/2008 wef 01/07/2009]

(16) On receiving at least 4 days written notice from a consumer that he desires to have his supply terminated or his liability transferred, the water service installation shall be disconnected and the meter removed.

(17) The consumer shall pay all rates and charges incurred until the expiration of the 4 days notice to the Board of his wish to have his supply terminated or his liability transferred.

Metered water consumption

37.—(1) Where premises are supplied with metered water which is paid for by an owner or landlord, whether or not the payment is recoverable by him, in whole or in part, from the occupier, then for so long as he remains the owner or landlord thereof the following conditions shall apply:

- (a) the owner or landlord shall be deemed to be the consumer until such time as he has made arrangements satisfactory to the Board for any occupier to become the consumer in his place; and
- (b) notwithstanding any notice which he may have given either to the Board or to any such occupier, the owner or landlord shall still be liable for payment of any money due in respect of such consumption.

(2) Where the Board supplies water through a master meter and one or more sub-meters, notwithstanding any notice which the consumer

who is liable to pay for his consumption registered by the master meter may have given to the Board, he shall be deemed to remain the consumer until he has made arrangements satisfactory to the Board for another person to become the consumer in his place.

(3) Where the amount of water registered by the master meter is less than the amount registered by one or more sub-meters, the consumer liable to pay for the consumption registered by the master meter shall pay such amount as the Board or the agent of the Board may determine to be representative of the usual consumption of the consumer.

Water meter reading

38.—(1) Meters shall be read at such times as the Board may direct.

(2) Where a meter reader in the course of his duties is unable to read any meter in the premises of the consumer by reason of —

- (a) the door of the premises being locked;
- (b) the presence of any ferocious dog or other wild or dangerous animal; or
- (c) any other obstruction or hindrance,

the Board or the agent of the Board shall make a fair and reasonable estimate of the bill to be paid by the consumer for the month, and such estimated bill shall be paid by the consumer.

(3) [*Deleted by S 97/2005 wef 01/03/2005*]

(4) The Board or the agent of the Board shall make adjustments to any estimated bill as soon as the meter of the consumer has been read by the meter reader.

[*S 97/2005 wef 01/03/2005*]

(5) A reminder fee specified in the Third Schedule shall be payable to the Board or the agent of the Board on every reminder issued by the Board or the agent of the Board to a consumer who has failed to make payment in accordance with a bill sent to him.

[*S 703/2008 wef 01/07/2009*]

(6) Where a reminder has been sent by the Board or the agent of the Board to a consumer to make payment in accordance with a bill sent

to him and any amount stated in that bill remains unpaid by the consumer upon the issue of the next bill to him, a late payment charge of 1% of that amount remaining unpaid shall be payable by the consumer.

Hoses or sprinklers not to be used except in certain instances

39.—(1) Except with the written permission of the Board, which may be withdrawn in its discretion, no person shall —

- (a) use water supplied by the Board to water any garden, lawn or other land including commercial market gardens, commercial nurseries, sports grounds, golf courses, race courses, public and club tennis courts by means of a hose, or a fixed or movable sprinkler;
- (b) use water supplied by the Board to wash any vehicle by means of a hose, pipe or any other appliance attached to a water tap or a draw-off point; or
- (c) install draw-off points connected to any water service installation in any garden, lawn or any place where the use of water from the Board is not meant strictly for domestic or other approved purposes.

(2) Nothing in this regulation shall be construed as preventing any person from using any water supplied by the Board for any of the purposes mentioned in paragraph (1)(a) or (b) if such person uses a bucket, can or other similar container or a hose fitted with a controlling device specified by the Board for this purpose.

(3) Any person who uses or permits or suffers water supplied by the Board to be used contrary to this regulation shall be considered to be wasting water and shall be guilty of an offence and may be liable to have his supply of water disconnected by the Board.

Conservation of water and installation of water saving devices

40.—(1) No person shall install, or cause or permit to be or to remain installed —

- (a) any water fitting in any premises which is not fitted with such water saving devices as may be stipulated by the authorised officer;
 - (b) any water fitting or shower where the flow rate, water pressure or timing from that water fitting or shower exceeds the limits specified by the authorised officer;
 - (c) any cooling tower in any premises (including residential, commercial and industrial premises and hotels) where the amount of water used for cooling purposes does not comply with the water usage standards and requirements specified by the Board;
 - (d) any boiler used for industrial or commercial purposes which is not fitted with such water pre-treatment facilities as may be required by the Board;
 - (e) any cooling system which is of once-through design;
 - (f) any cooling system in which the cooling water is not recycled; or
 - (g) any bath having a capacity, measured to the overflow level of the bath, exceeding 250 litres which does not incorporate recycling facilities or has a drain plug for direct discharge of water.
- (2) No person shall use water supplied by the Board to dilute industrial waste water so that it may be discharged into the public sewer.
- (3) The Board may give such directions on water conservation to any consumer as it thinks fit, and the consumer shall comply with such directions.
- (4) Any person who contravenes this regulation shall be guilty of an offence.

PART IVA A

WATER EFFICIENCY

[S 133/2017 wef 01/04/2017]

Division 1 — General

Interpretation of this Part

40A. In this Part —

“accredited certification body” means a certification body accredited under the Certification Bodies (Water Efficiency Labelling) Scheme administered by the Enterprise Singapore Board (established by section 3 of the Enterprise Singapore Board Act 2018 (Act 10 of 2018));

[S 164/2018 wef 01/04/2018]

“affix”, in relation to a Water Efficiency Label, includes printing the Water Efficiency Label on the packaging of a registered water fitting;

“manufacturer” includes a person who assembles parts of a specified water fitting;

“registered supplier” means an importer or a manufacturer who is registered as a registered supplier under regulation 40AE(3);

“specified water fitting” means any of the following:

- (a) a tap and mixer;
- (b) a flushing cistern;
- (c) a urinal flush valve;
- (d) a waterless urinal;

[S 535/2018 wef 01/10/2018]

- (e) a clothes washing machine intended for household use;
- (f) a dishwasher intended for household use;

[S 535/2018 wef 01/10/2018]

[S 535/2018 wef 01/10/2018]

“supply”, in relation to any specified water fitting, means the supply of the specified water fitting in the course of any trade or business, and includes —

- (a) the supply of the specified water fitting by way of sale, lease, loan, consignment, hire or hire-purchase;
- (b) the supply of the specified water fitting in connection with any agreement;
- (c) the offer to supply the specified water fitting; and
- (d) the display of the specified water fitting for supply;

“test report”, in relation to any specified water fitting, means the report of the most recent test carried out for the specified water fitting in accordance with the prevailing test standard or method specified in Part 1 of the Second Schedule;

“Water Efficiency Label” means a water efficiency label that is in accordance with the requirements specified in Part 2 of the Second Schedule.

[S 133/2017 wef 01/04/2017]

Division 2 — Restrictions on supply, etc., of specified water fittings

Restrictions on supply of specified water fittings

40AA.—(1) A person must not supply any specified water fitting unless the specified water fitting —

- (a) is registered under regulation 40AE(3); and
- (b) is affixed with a Water Efficiency Label in the manner specified in regulation 40AD(3).

(2) A person must not supply any specified water fitting affixed with a Water Efficiency Label —

- (a) that is obscured or defaced; or
- (b) that the person has reason to believe to be altered, forged or falsified.

(3) Without affecting paragraph (1) or (2), an importer or a manufacturer of a specified water fitting must not supply the specified water fitting unless —

- (a) the importer or manufacturer is a registered supplier for the specified water fitting; and

(b) the specified water fitting meets the water efficiency requirements specified in Part 3 of the Second Schedule for the specified water fitting.

(4) Any person that contravenes paragraph (1), (2) or (3) shall be guilty of an offence.

[S 133/2017 wef 01/04/2017]

Restrictions on advertisements for supply of specified water fittings

40AB.—(1) A person must not advertise a specified water fitting for supply unless the specified water fitting is registered under regulation 40AE(3).

(2) Without affecting paragraph (1), the person advertising the specified water fitting —

(a) where the advertisement has any visual element, must ensure the following:

(i) for an advertisement other than a print advertisement —

(A) a Water Efficiency Label is, as far as practicable, displayed in the advertisement next to the image or description of the specified water fitting; or

(B) where it is not practicable to comply with sub-paragraph (A), all the information contained in the Water Efficiency Label is stated in the advertisement;

(ii) for an advertisement that is a print advertisement —

(A) the advertisement complies with sub-paragraph (i); or

(B) the information mentioned in paragraph (2A) is stated in the advertisement; and

[S 192/2019 wef 01/04/2019]

- (b) must not claim or imply that the specified water fitting is tested, certified, or otherwise approved by the Government or the Board.

(2A) The information required in paragraph (2)(a)(ii)(B) is as follows:

- (a) the tick rating of the specified water fitting;
- (b) the brand of the specified water fitting;
- (c) the model number of the specified water fitting;
- (d) the number issued by the Board for the specified water fitting's registration under regulation 40AE.

[S 192/2019 wef 01/04/2019]

(3) Any person that contravenes paragraph (1) or (2) shall be guilty of an offence.

[S 133/2017 wef 01/04/2017]

Restrictions on supply of water fittings modified after registration

40AC.—(1) Where a water fitting is modified after it is registered under regulation 40AE(3), a person must not supply the water fitting as modified, unless —

- (a) for a modification affecting the water efficiency of the registered water fitting, the registered supplier that originally registered the water fitting first separately registers the water fitting as modified under regulation 40AE(3); or
- (b) for a modification not affecting the water efficiency of the registered water fitting, the registered supplier that originally registered the water fitting first notifies the Board in writing of the modification and gives to the Board the particulars of the modification required by the Board.

(2) Any person that contravenes paragraph (1) shall be guilty of an offence.

[S 133/2017 wef 01/04/2017]

Restrictions relating to Water Efficiency Label

40AD.—(1) A person must not affix, or cause to be affixed, a Water Efficiency Label on a specified water fitting unless —

- (a) the specified water fitting has been registered by the Board;
- (b) the person is a registered supplier for the water fitting; and
- (c) the Water Efficiency Label was issued to the person by an accredited certification body for the registered water fitting.

[S 164/2018 wef 01/04/2018]

(2) A registered supplier must, before supplying the registered water fitting in Singapore, affix the Water Efficiency Label in accordance with the requirements in paragraph (3).

(3) A Water Efficiency Label must be affixed on a registered water fitting in accordance with the following requirements:

- (a) where the Water Efficiency Label is not printed onto the packaging of the registered water fitting, the Water Efficiency Label must be affixed securely on the registered water fitting or its packaging;
- (b) the place where the Water Efficiency Label is affixed must be conspicuous and unobstructed.

(4) A person must not —

- (a) alter in any way any Water Efficiency Label that is to be or is affixed on a registered water fitting;
- (b) forge or falsify any Water Efficiency Label; or
- (c) without reasonable excuse, remove, obscure or deface any Water Efficiency Label affixed on any registered water fitting.

(5) Any person that contravenes paragraph (1), (2) or (4) shall be guilty of an offence.

[S 133/2017 wef 01/04/2017]

Division 3 — Administration and enforcement of this Part

Registration of suppliers and water fittings

40AE.—(1) An importer or a manufacturer that intends to supply a specified water fitting in Singapore may apply to the Board —

- (a) to be registered as a registered supplier; and
- (b) to register the specified water fitting that the importer or manufacturer intends to supply in Singapore.

(2) Every application mentioned in paragraph (1) must be submitted to the Board through an accredited certification body and accompanied by —

- (a) such documents and information as may be required in the relevant form set out at the Board's Internet website at <http://www.pub.gov.sg>;
- (b) a test report issued by an accredited laboratory in respect of the specified water fitting showing the water efficiency of the water fitting;

[S 164/2018 wef 01/04/2018]

- (ba) a certificate issued by an accredited certification body, stating the water efficiency rating for the specified water fitting; and

[S 164/2018 wef 01/04/2018]

- (c) such other documents and information as the Board may require.

[S 164/2018 wef 01/04/2018]

(3) Upon considering the application received under paragraph (2), the Board may register, or refuse to register —

- (a) any applicant as a registered supplier; or
- (b) any specified water fitting as a registered water fitting.

(4) The Board must not register a specified water fitting under paragraph (3) if the specified water fitting does not comply with regulation 5.

- (5) A registered supplier that —
- (a) intends to cease supplying a registered water fitting in Singapore must notify the Board of such an intention no less than 14 days before it ceases to supply the registered water fitting; or
 - (b) changes the registered supplier's name or contact details must inform the Board in writing of such a change within 7 days after the change.
- (6) Any person that fails to comply with paragraph (5) shall be guilty of an offence.

[S 133/2017 wef 01/04/2017]

Withdrawal or revocation of registration

40AF.—(1) The Board may withdraw the registration —

- (a) of any registered supplier where the registered supplier applies to the Board to withdraw the registered supplier's registration as such; or
- (b) of any registered water fitting that a registered supplier ceases to supply in Singapore, where the registered supplier applies to the Board to withdraw such registration.

(2) The Board may revoke the registration of any registered supplier after giving notice to the registered supplier and after such inquiry as the Board thinks fit if —

- (a) the registered supplier procured the registration by providing any particulars, information or document, or by making any statement or representation, to the Board which is false or misleading in any material particular;
- (b) the registered supplier has contravened regulation 40AA, 40AC or 40AD; or
- (c) the registered supplier has ceased to carry on the trade of business of supplying registered water fittings in Singapore.

(3) The Board may revoke the registration of any registered water fitting after giving notice to the registered supplier supplying the

registered water fitting and after such inquiry as the Board thinks fit, if the Board is satisfied that —

- (a) the registered water fitting does not conform with the results of any test or examination furnished by the registered supplier to the Board under this Division;
- (b) the registered water fitting does not meet the water efficiency requirements specified in Part 3 of the Second Schedule;

[S 164/2018 wef 01/04/2018]

- (c) the registered supplier has procured the registration of the registered water fitting by providing any particulars, information or document, or by making any statement or representation, to the Board which is false or misleading in any material particular; or

[S 164/2018 wef 01/04/2018]

- (d) the registered supplier has ceased to supply the registered water fitting.

[S 164/2018 wef 01/04/2018]

(4) The Board must, within 14 days after giving notice under paragraph (2) or (3), inform the registered supplier concerned in writing of the revocation in the notice and the grounds for the revocation.

(5) Where the registration of any water fitting is withdrawn under paragraph (1) or revoked under paragraph (3), the registered supplier of the water fitting must, within 14 days after the registered supplier applies to withdraw the water fitting or the Board informs the registered supplier of the revocation under paragraph (4), as the case may be, give notice to every person whom the registered supplier knows, or reasonably ought to know, intends to supply that water fitting in Singapore, of the withdrawal or revocation of the registration.

(6) Any person that fails to comply with paragraph (5) shall be guilty of an offence.

[S 133/2017 wef 01/04/2017]

Board may require specified water fittings for testing or analysis

40AG.—(1) The Board may require any person carrying on a trade or business which consists of or includes the supply of any specified water fitting —

- (a) to provide free of charge to the Board samples of the specified water fitting for the purpose of testing or analysis; and
- (b) to furnish to the Board such documents or information as the Board may require in respect of the specified water fitting or the supply of the specified water fitting.

(2) Any person that fails to comply with any requirement of the Board under subsection (1) shall be guilty of an offence.

[S 133/2017 wef 01/04/2017]

Board may require recall of specified water fittings supplied

40AH.—(1) Where the Board knows or has reason to believe that a specified water fitting has been supplied in contravention of regulation 40AA or 40AC, the Board may, by notice in writing, require the person (called in this paragraph the first person) who supplied the specified water fitting to, within such time specified in the notice —

- (a) recall, at the first person's own cost and expense, all such water fittings (whether or not also installed); or
- (b) notify every person whom the first person knows, or reasonably ought to know, intends to supply that water fitting in Singapore, of the contravention.

(2) Any person that fails to comply with a notice served on him under paragraph (1) shall, unless the person satisfies the court that the person has used all due diligence to comply with the notice, be guilty of an offence.

[S 133/2017 wef 01/04/2017]

PART IVA

WATER EFFICIENCY MANAGEMENT PRACTICES

*[S 826/2014 wef 01/01/2015]**Division 1 — General***Definitions for this Part****40B.** In this Part, unless the context otherwise requires —

“appointed qualifying consumer”, in relation to qualifying consumers under regulation 40C(4), means an appointed qualifying consumer under regulation 40CA;

[S 112/2019 wef 01/03/2019]

“business activity” means an activity, or a series of activities (including ancillary activities), that involves the use of water in the course of business operations;

“business activity indicator” means a measure of business activity that takes into account the business operations of a qualifying consumer;

“chief executive” means any person, however described, who is in the direct employment of, or acting for or by arrangement with, a consumer, and is principally responsible for the management and conduct of the business operations of the consumer;

*[S 112/2019 wef 01/03/2019]**[Deleted by S 112/2019 wef 01/03/2019]*

“construction site” means any premises where the business activity of the consumer comprises wholly of construction, being any one or more of the following:

- (a) the erection, construction, alteration, repair or maintenance of buildings, structures or roads;
- (b) the breaking up, opening or boring under any road or adjacent land in connection with the construction, inspection, maintenance or removal of works;
- (c) piling, demolition or dredging works;

(d) any other work of engineering construction;

[S 112/2019 wef 01/03/2019]

“private meter” means any appliance or device, whether or not supplied by the Board, which is used to measure, ascertain or regulate the amount of water taken or used from a supply of water, but is not used for the purposes of calculating any water rates or charges payable to the Board;

“qualifying consumer” means —

(a) in relation to any year before the year 2019, a consumer that satisfied the requirements specified in regulation 40C(1) as in force immediately before 1 March 2019; and

(b) in relation to the year 2019 or any subsequent year, a qualifying consumer under regulation 40C;

[S 112/2019 wef 01/03/2019]

[Deleted by S 112/2019 wef 01/03/2019]

[Deleted by S 112/2019 wef 01/03/2019]

“specified consumer” means a specified consumer under regulation 40BA;

[S 112/2019 wef 01/03/2019]

“water balance chart” means a chart showing —

(a) the amount of water entering a site at which a business activity is carried out;

(b) the amount of water used for each business activity at the site; and

(c) the amount of water leaving the site;

“water efficiency manager”, in relation to a qualifying consumer, means a person appointed by the qualifying consumer as its water efficiency manager under regulation 40GA;

[S 112/2019 wef 01/03/2019]

“water usage area” means any area within a site at which a business activity is carried out, and includes an area specified in the Fourth Schedule;

“water use threshold” means 60,000 cubic metres.

[S 112/2019 wef 01/03/2019]

Division 2 — Specified consumers

Specified consumer

40BA.—(1) A consumer is, for any year (T), a specified consumer in accordance with this regulation.

(2) A consumer is, for year T, a specified consumer for a site if —

- (a) at any time in year T – 1, the consumer held one or more water accounts with the Board for water supplied by the Board to the site;
- (b) the water was used in connection with any business activity carried out at the site (whether or not by the consumer); and
- (c) in year T – 1, the volume in aggregate of water supplied at the site under the water account or water accounts attained the water use threshold (or higher).

(3) A consumer is, for year T, a specified consumer for 2 or more sites if —

- (a) at any time in year T – 1, the consumer held 2 or more water accounts with the Board for water supplied by the Board to those sites;
- (b) the water was used in connection with the same type of business activity carried out at the sites by the consumer (whether or not the consumer carried on any other type of business activity at any of those sites); and
- (c) in year T – 1, the volume in aggregate of water supplied at the sites under the water accounts attained the water use threshold (or higher).

(4) Each of 2 or more consumers is, for year T, a specified consumer for a site if —

- (a) at any time in year T – 1, the consumers each held one or more water accounts with the Board for water supplied by the Board to the site;
- (b) the water was used in connection with the same type of business activity carried out at the site by each of the consumers (whether or not any of the consumers carried on any other type of business activity at the site);
- (c) in year T – 1, the volume in aggregate of water supplied at the site under the water accounts to the consumers attains the water use threshold (or higher); and
- (d) the Board notifies the consumers in writing that sub-paragraphs (a), (b) and (c) apply to them for year T – 1.

(5) Where (but for this paragraph) paragraph (2), and paragraph (3) or (4), apply to a consumer, then the consumer is a specified consumer only under paragraph (3) or (4), as the case may be.

[S 112/2019 wef 01/03/2019]

Submission of information and documents by specified consumer

40BB.—(1) Where regulation 40BA(2) or (3) applies, the specified consumer mentioned in those paragraphs must submit to the Board, in accordance with paragraph (6), the information and documents mentioned in that paragraph for the site or sites (as the case may be), if —

- (a) the consumer was not, for year T – 1, a qualifying consumer for the site or sites; or
- (b) the consumer supplied water in year T – 1 to another person at the site or at any of the sites.

(2) Paragraph (1) does not apply if, before 1 April of year T, the consumer ceases the business activity at the site or all the sites in respect of which the consumer is a specified consumer.

(3) Where regulation 40BA(4) applies, all the specified consumers mentioned in that paragraph must appoint, for year T, one from among them as the appointed specified consumer to submit to the

Board on their behalf the information and documents required of them under paragraph (4).

(4) The specified consumers mentioned in regulation 40BA(4) must each submit to the Board, through the appointed specified consumer and in accordance with paragraph (6), the information and documents mentioned in that paragraph for the site, if —

- (a) any one of the consumers was not a qualifying consumer in year $T - 1$; or
- (b) any one of the consumers supplied water in the year $T - 1$ to another person at the site.

(5) Paragraph (4) does not apply if, before 1 April of year T , all the consumers cease the business activity at the site in respect of which the consumers are specified consumers for year T .

(6) The information and documents mentioned in paragraph (1) or (4) must —

- (a) be submitted to the Board —
 - (i) before 1 April of year T (or such later date as the Board may allow in any particular case);
 - (ii) through the Board's website at <https://www.pub.gov.sg>; and
 - (iii) in the form specified by the Board; and

- (b) comprise the following:
 - (i) the bills and other records (if any) showing the volume of each type of water supplied to the specified consumer at the site or sites in question for year $T - 1$ (whether or not the water was supplied by the Board);
 - (ii) if applicable, for water supplied by the specified consumer to another person at the site or sites in question —
 - (A) the particulars of the other person; and

- (B) the volume of each type of water supplied to the other person;
 - (iii) such other information or documents required by the Board relating to the water used at the site or sites in question;
 - (iv) such particulars (including contact details and a business profile) relating to the specified consumer and site or sites in question, as may be specified in the form;
 - (v) a signed statement from the chief executive of the specified consumer in question, that the information and documents submitted are accurate and complete.
- (7) A consumer that, without reasonable excuse, contravenes paragraph (1), (3) or (4) shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

Division 3 — Qualifying consumers

Qualifying consumer

40C.—(1) A consumer is, for any year (T), a qualifying consumer in accordance with this regulation.

- (2) A consumer is, for year T, a qualifying consumer for a site if —
- (a) at any time in year T – 1, T – 2 or T – 3, the consumer used water (whether or not supplied by the Board) in carrying out any of the consumer’s business activities at the site; and
 - (b) in any one of the years mentioned in sub-paragraph (a), the volume of water used at the site attained the water use threshold (or higher),

unless, at any time in year T – 1, the consumer ceased all the business activities at the site in connection with which the water was used.

(3) A consumer is, for year T, a qualifying consumer for 2 or more sites if —

- (a) at any time in year T – 1, T – 2 or T – 3, the consumer used water (whether or not supplied by the Board) in carrying

out the same type of business activity at those sites (whether or not the consumer carried on any other type of business activity at any of those sites); and

- (b) in any one of those years mentioned in sub-paragraph (a), the volume in aggregate of water used by the consumer for that type of business activity at those sites attained the water use threshold (or higher),

unless, at any time in year $T - 1$, the consumer ceased that type of business activity at all those sites.

(4) Each of 2 or more consumers is, for year T , a qualifying consumer for a site if —

- (a) at any time in year $T - 1$, $T - 2$ or $T - 3$, the consumers used water (whether or not supplied by the Board) in carrying out the same type of business activity at the site (whether or not any of the consumers carried on any other type of business activity at the site);
- (b) in any one of the years mentioned in sub-paragraph (a), the volume in aggregate of the water used by the consumers for that type of business activity at the site attained the water use threshold (or higher); and
- (c) the Board notifies the consumers in writing that sub-paragraphs (a) and (b) apply to them.

(5) Where (but for this paragraph) paragraph (2), and paragraph (3) or (4), apply to a consumer, then the consumer is a qualifying consumer only under paragraph (3) or (4), as the case may be.

[S 112/2019 wef 01/03/2019]

Appointed qualifying consumer

40CA.—(1) Where 2 or more consumers are, for any year (T) —

- (a) qualifying consumers for a site under regulation 40C(4); and
- (b) not specified consumers under regulation 40BA(4) for the site,

all the qualifying consumers mentioned in regulation 40C(4) must appoint, for year T, one from among them as the appointed qualifying consumer to submit to the Board on their behalf the information and documents required of them under regulations 40D(3) and 40H(2)(a) and the water efficiency plan mentioned in regulation 40H(2)(c).

(2) Where 2 or more consumers are, for any year (T) —

(a) qualifying consumers for a site under regulation 40C(4);
and

(b) specified consumers under regulation 40BA(4) for the site,

then, the appointed specified consumer for those consumers under regulation 40BB(3) is, for year T, the appointed qualifying consumer for the purposes of this Part.

(3) A consumer that, without reasonable excuse, contravenes paragraph (1) shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

Submission of information and documents by qualifying consumer

40D.—(1) Where regulation 40C(2) or (3) (as the case may be) applies, the consumer must submit to the Board, in accordance with paragraph (5), the information and documents mentioned in that paragraph for the site or sites if the consumer —

(a) is not required, under regulation 40BB(1) or (2), to submit information or documents for the site or sites in year T; and

(b) was not a qualifying consumer for year T – 1.

(2) Paragraph (1) does not apply if, before 1 May of year T, the consumer ceases the business activity at the site or all the sites in respect of which the consumer is a qualifying consumer.

(3) Where regulation 40C(4) applies, the consumers must each submit to the Board, through the appointed qualifying consumer and in accordance with paragraph (5), the information and documents mentioned in that paragraph for the site, if —

- (a) the consumers are not required, under regulation 40BB(4), to submit information or documents for the site in year T; and
 - (b) any one of the consumers was not a qualifying consumer for the site in year T – 1.
- (4) Paragraph (3) does not apply if, before 1 May of year T, all the consumers cease the business activity at the site in respect of which the consumers are qualifying consumers for year T.
- (5) The information and documents mentioned in paragraph (1) or (3) must —
- (a) be submitted to the Board —
 - (i) before 1 May of year T (or such later date as the Board may allow in any particular case);
 - (ii) through the Board’s website at <https://www.pub.gov.sg>; and
 - (iii) in the form specified by the Board; and
 - (b) comprise the following:
 - (i) the bills and other records (if any) showing the volume of each type of water supplied to the qualifying consumer at the site or sites in question for year T – 1 (whether or not the water was supplied by the Board);
 - (ii) such other information or documents required by the Board relating to the water used at the site or sites in question;
 - (iii) such particulars (including contact details and a business profile) relating to the qualifying consumer and site or sites in question, as may be specified in the form;
 - (iv) a signed statement from the chief executive of the qualifying consumer in question, that the information and documents submitted are accurate and complete.

(6) A consumer that, without reasonable excuse, contravenes paragraph (1) or (3) shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

Notification of ceasing to be qualifying consumer

40E.—(1) A consumer who is a qualifying consumer under regulation 40C(2) or (3) for any year and is not or will not be such a qualifying consumer for the next year (called in this regulation the year of cessation) must notify the Board of that fact in accordance with paragraphs (3) and (4).

[S 112/2019 wef 01/03/2019]

(2) *[Deleted by S 112/2019 wef 01/03/2019]*

(3) A notification under paragraph (1) must —

(a) be given —

(i) using the relevant form provided in the electronic service at the Board's Internet website at <http://www.pub.gov.sg>; and

(ii) in the manner specified by the Board;

(b) be accompanied by the information and documents specified in the form mentioned in sub-paragraph (a)(i) or as may be required by the Board and —

(i) bills and other records (if any) showing the volume of each type of water supplied for the 3 consecutive years preceding the year of cessation; or

(ii) if the consumer is not or will not be a qualifying consumer in the year of cessation due to the consumer having ceased (in the preceding year) the business activities at the site or sites in connection with which water was used, documentary evidence that the consumer so ceased the business activity; and

[S 112/2019 wef 01/03/2019]

(c) be made —

(i) before 1 April of the year of cessation; or

- (ii) if sub-paragraph (b)(ii) applies, within 3 months after the consumer ceases the business activities.

[S 112/2019 wef 01/03/2019]

[S 112/2019 wef 01/03/2019]

(4) The relevant form referred to in paragraph (3)(a)(i) must be endorsed by the chief executive of the consumer.

(5) Without prejudice to paragraph (1) —

- (a) a consumer which intends to cease its business operations may notify the Board in writing of the consumer's intention to do so; and

- (b) the notification must be accompanied by documentary proof that the consumer intends to cease its business operations.

[S 112/2019 wef 01/03/2019]

(6) A consumer which contravenes paragraph (1) shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

40F. [*Deleted by S 112/2019 wef 01/03/2019*]

Board may ascertain whether consumer is qualifying consumer

40G.—(1) The Board may, for the purposes of ascertaining whether any consumer is a qualifying consumer, do all or any of the following:

- (a) by notice in writing, require that consumer —

- (i) to carry out such inspections within such time as the Board may specify in the notice; or

- (ii) to furnish to the Board, in respect of any business activity of that consumer, such reports, information or documents within such time as the Board may specify in the notice;

- (b) by its employees, agents or contractors enter the premises of that consumer at reasonable hours and carry out such inspections to ascertain the source of water and the amount of each type of water used at each water usage area, as the Board may think necessary.

(2) A consumer which, without reasonable excuse, fails to comply with a requirement under paragraph (1)(a) shall be guilty of an offence.

Appointment of water efficiency manager

40GA.—(1) A qualifying consumer must appoint at least one water efficiency manager to assist the qualifying consumer with the following functions:

- (a) to prepare the information and documents and water efficiency plan for submission under regulation 40H;
- (b) to maintain the records required under regulation 40J;
- (c) generally to comply with the provisions of this Part.

(2) A water efficiency manager need not be an employee of the qualifying consumer.

(3) The qualifying consumer must not appoint any person as the qualifying consumer's water efficiency manager unless the person has obtained a Certificate of Proficiency issued by the Board for the Water Efficiency Manager course.

(4) The qualifying consumer must, before 1 July of the year for which the qualifying consumer is a qualifying consumer (or such later date as the Board may allow in any particular case) —

- (a) appoint a water efficiency manager; and
- (b) notify the Board of the appointment through the Board's website at <https://www.pub.gov.sg>.

(5) If any person ceases for any reason to be a water efficiency manager of a qualifying consumer and the person was, immediately before the cessation, the qualifying consumer's only water efficiency manager, the qualifying consumer must —

- (a) within 30 days after the cessation, notify the Board of that fact through the Board's website at <https://www.pub.gov.sg>; and
- (b) within 90 days after the cessation (or such later date as the Board may allow in any particular case) —

- (i) appoint under paragraph (1) another water efficiency manager in substitution of the firstmentioned water efficiency manager; and
- (ii) notify the Board of that substitute appointment through the Board's website at <https://www.pub.gov.sg>.

(6) The Board may, at any time, require a qualifying consumer to submit documentary proof that a water efficiency manager of the qualifying consumer fulfils the requirements mentioned in paragraph (3).

(7) A consumer that, without reasonable excuse, contravenes this regulation shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

Submission of water efficiency plan, etc.

40H.—(1) Where regulation 40C(2) or (3) (as the case may be) applies, the qualifying consumer must —

- (a) submit, in accordance with paragraph (3), the information and documents mentioned in that paragraph; and
- (b) prepare and submit, in accordance with paragraph (4), a water efficiency plan for the site or sites,

unless, before 1 July of year T, the qualifying consumer ceases the business activity at all the sites in respect of which the consumer is a qualifying consumer for year T.

(2) Where regulation 40C(4) applies, the consumers —

- (a) must submit, through the appointed qualifying consumer and in accordance with paragraph (3), the information and documents mentioned in that paragraph;
- (b) must jointly prepare, in accordance with paragraph (4), one water efficiency plan for the site; and
- (c) must submit, through the appointed qualifying consumer and in accordance with paragraph (4), the water efficiency plan,

unless, before 1 July of year T, all the qualifying consumers for the site cease the business activity at the site in respect of which the consumers are qualifying consumers for year T.

(3) The information and documents mentioned in paragraph (1)(a) or (2)(a) must —

(a) be submitted to the Board —

- (i) together with the water efficiency plan;
- (ii) before 1 July of year T (or such later date as the Board may allow in writing in any particular case);
- (iii) through the Board's website at <https://www.pub.gov.sg>; and
- (iv) in the form specified by the Board; and

(b) comprise the following relating to year T – 1, in respect of each business activity carried out by the qualifying consumer at the site:

- (i) the number of days in that year during which the business activity was carried out;
- (ii) the plant recycling rate and process recycling rate, if applicable;
- (iii) the total amount of each type of water supplied by the Board that is used in the business activity;
- (iv) the total amount of each type of water not supplied by the Board that is used in the business activity;
- (v) the amount of each type of water (whether or not supplied by the Board) used at each water usage area, including the amount recorded by any private meter;
- (vi) for each reused or recycled stream, the type and amount of that stream, the type of treatment used for recycling, and the water usage area that uses that stream;
- (vii) every business activity indicator;

- (viii) any information regarding the water efficiency of any cooling system used at the site or sites;
 - (ix) a water balance chart;
 - (x) such other information or documents required by the Board relating to the water used at the site or sites in question;
 - (xi) a signed statement from the chief executive and the water efficiency manager of the qualifying consumer in question, that the information and documents submitted are accurate and complete.
- (4) The water efficiency plan must —
- (a) be submitted to the Board —
 - (i) by a water efficiency manager of the qualifying consumer or appointed qualifying consumer, as the case may be;
 - (ii) before 1 July of year T (or such later date as the Board may allow in writing in any particular case);
 - (iii) through the Board's website at <https://www.pub.gov.sg>; and
 - (iv) in the form specified by the Board;
 - (b) describe the following:
 - (i) the water conservation measures used or intended to be used at the site or sites;
 - (ii) the date for the implementation or intended date of implementation of each of those measures;
 - (iii) the estimated cost of implementing each of those measures;
 - (iv) the implementation status of those measures;
 - (v) the projected annual water savings for each type of water used at the site or sites; and

(c) be endorsed by —

- (i) for a water efficiency plan under paragraph (1) — the chief executive and water efficiency manager of the qualifying consumer; and
- (ii) for a water efficiency plan under paragraph (2) — the chief executive and water efficiency manager of the appointed qualifying consumer.

(5) A qualifying consumer that, without reasonable excuse, contravenes paragraph (1) or (2) shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

Board may give directions in relation to submissions under this Part

40I.—(1) Where a consumer submits —

- (a) information or documents that do not conform to the requirements under regulation 40BB(6)(b), 40D(5)(b), 40E(3)(b) or 40H(3)(b), as the case may be; or
- (b) a water efficiency plan that does not conform to the requirements under regulation 40H(4),

the Board may, by notice in writing, direct the consumer to carry out such rectifications or re-computations, and to resubmit the information or documents, or water efficiency plan (as the case may be) to the Board, within such time and in such manner as the Board may specify in the notice.

[S 112/2019 wef 01/03/2019]

(2) A consumer which fails to comply with a direction under paragraph (1) shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

[S 112/2019 wef 01/03/2019]

Records to be kept by specified consumer

40IA.—(1) A specified consumer for a site or sites must keep and maintain complete and accurate records of the following information:

- (a) the total amount of each type of water supplied by the Board that is used by the specified consumer at the site;
 - (b) the total amount of each type of water not supplied by the Board that is used by the specified consumer at the site or sites;
 - (c) if applicable, for water supplied by the specified consumer to another person at the site or sites in question —
 - (i) the particulars of the other person; and
 - (ii) the volume of each type of water supplied to the other person.
- (2) A specified consumer must —
- (a) retain each record mentioned in paragraph (1) for at least 5 years after the date of creation or receipt of that record; and
 - (b) during that period, make that record available for inspection by the Board or an authorised officer, or furnish that record to the Board, whenever required by the Board to do so.
- (3) The records mentioned in paragraph (1) may be kept and maintained in electronic form.
- (4) A specified consumer that contravenes paragraph (1) or (2) shall be guilty of an offence.

[S 112/2019 wef 01/03/2019]

Records to be kept by qualifying consumer

40J.—(1) A qualifying consumer must keep and maintain complete and accurate records of the information specified in paragraph (2).

- (2) The information referred to in paragraph (1) is as follows:
- (a) information on —
 - (i) the total amount of each type of water supplied by the Board that is used; and
 - (ii) the total amount of each type of water not supplied by the Board that is used;

- (b) information used for computing plant recycling rates and process recycling rates, if applicable;
- (c) water balance charts;
- (d) information on the amount of each type of water (whether or not supplied by the Board) used at each water usage area, including the amount recorded by any private meter;
- (e) for each reused or recycled stream, the type and amount of that stream, the type of treatment used for recycling, and the water usage area that uses that stream; and
- (f) any other information relied on by the qualifying consumer for the purposes of preparing the submissions required under regulation 40H.

[S 112/2019 wef 01/03/2019]

(3) A qualifying consumer must —

- (a) retain each record referred to in paragraph (1) for at least 5 years after the date of creation or receipt of that record; and
- (b) during that period, make that record available for inspection by the Board or an authorised officer, or furnish that record to the Board, whenever required by the Board to do so.

(4) The records referred to in paragraph (1) may be kept and maintained in electronic form.

(5) A qualifying consumer which contravenes paragraph (1) or (3) shall be guilty of an offence.

Installation of private meter and measurement of water consumption

40K.—(1) This regulation shall apply to a consumer (referred to in this regulation as a relevant consumer) if —

- (a) the consumer is a qualifying consumer; or
- (b) at the time the consumer applies to be supplied with water by the Board, the consumer estimates, in consultation with

the Board, the consumer's average monthly amount of water use (whether or not the water is supplied by the Board) at a site to be at least 5,000 cubic metres.

[S 112/2019 wef 01/03/2019]

(2) If paragraph (1)(a) applies, a relevant consumer must, for such time the relevant consumer is a qualifying consumer, ensure that one or more private meters are installed to measure and monitor the amount of water use at each water usage area specified in the second column of the Fourth Schedule within each site for which the relevant consumer is a qualifying consumer.

[S 112/2019 wef 01/03/2019]

(2A) For the purposes of paragraph (2), the private meter or meters must be installed before 1 July of the year for which the consumer is a qualifying consumer (or such later date as the Board may allow in writing in any particular case).

[S 112/2019 wef 01/03/2019]

(3) Despite paragraph (2), where a relevant consumer belongs to a sector specified in the first column of item 5 or 6 of the Fourth Schedule, and the supply of water to that consumer by the Board immediately before 1 January 2015 is intended to be temporary, that consumer is not required to install any private meter to measure and monitor the amount of water use at any water usage area specified opposite in the second column of that Schedule.

(4) If paragraph (1)(b) applies, a relevant consumer must install, before a licensed plumber submits to the Board a certificate of satisfactory completion under the Public Utilities (Regulated Works and WSI Design Works) Regulations 2018 (G.N. No. S 163/2018) on completion of the WSI works for the supply of water by the Board, one or more private meters to measure and monitor the amount of water use at each water usage area specified in the second column of the Fourth Schedule within each site the supply of water to which the consumer estimates will attain the monthly amount of water use specified in paragraph (1)(b).

[S 112/2019 wef 01/03/2019]

(5) The Board may, by notice in writing, require a relevant consumer to install, within such time as the Board may specify in

the notice, one or more private meters to measure and monitor the amount of water use at any water usage area (not being a water usage area specified in the second column of the Fourth Schedule) if the Board is satisfied that there are good reasons to do so.

(6) A relevant consumer which contravenes paragraph (2) or (4), or fails to comply with a requirement under paragraph (5), shall be guilty of an offence.

Exceptions

40L.—(1) This Part does not apply in relation to a vessel.

(2) Regulations 40BA and 40C do not apply in relation to construction sites.

(3) Regulations 40BA and 40C do not apply in relation to a consumer who proves to the satisfaction of the Board that the consumer attained the water use threshold at a site or sites only by reason of any of the following events:

(a) a water leakage at the site;

(b) water usage due to an activity that does not occur on a regular basis.

(4) Regulation 40K does not apply in relation to a water usage area at a site if the consumer that is supplied with water at the water usage area proves to the satisfaction of the Board that it is not reasonably practicable to install a private meter.

[S 112/2019 wef 01/03/2019]

PART V

MISCELLANEOUS

Board may waive requirements

41. The Board or the authorised officer may, either generally or in any particular case, waive any requirements specified in these Regulations or any standard, code of practice or guidelines referred to in regulation 3 to such extent as it or he thinks fit in all the circumstances of the case.

Manner of disconnection

42. Where the Board is entitled under these Regulations to disconnect any supply of water provided by it, the Board may do so by —

- (a) removing the meter;
- (b) disconnecting the connecting pipe; or
- (c) immobilising the controlling stop-valve at the meter or sub-meter position with a locking device or other suitable means whether or not such stop-valve is the property of the Board.

Board not liable for loss or damage

43.—(1) Where the Board issues any notice or direction under these Regulations, the Board shall not be liable for any loss, damage or contamination of water suffered by any person —

- (a) in complying with the requirements of such notice or direction;
- (b) arising out of or in consequence of the person having complied with the requirements of such notice or direction; or
- (c) notwithstanding compliance by that person with the requirements of such notice or direction.

(2) Where the Board, whether by itself or through any person —

- (a) executes any work under these Regulations; or
- (b) disconnects any water supply or refuses to supply any water to any person under these Regulations,

the Board shall not be liable for any loss, damage or contamination of water suffered by any person arising out of or in consequence of the execution of works, disconnection of supply or refusal to supply.

Fire services

44.—(1) The Board may grant any consumer permission to construct a fire service in any premises where such a service is

necessary or expedient to enable water to be drawn from the supply by the Board for the purpose of abating fire in such premises.

(2) Such fire service shall include the provision of adequate storage tanks, together with the necessary ancillary equipment, pipes and fittings to meet the flow and other requirements as specified by the relevant authorities.

(3) [*Deleted by S 97/2005 wef 01/03/2005*]

(4) The cost of the fire service including all connections to the water main of the Board shall be borne by the consumer.

[S 97/2005 wef 01/03/2005]

(5) These Regulations shall, with the necessary modifications, also apply to fire services.

(6) The Board shall not be responsible for damage or loss caused by disconnection, diminution or failure of the supply due to water restriction or to any other cause.

Inspection

45. Any officer of the Board may, in compliance with the provisions of the Act, inspect any water service installation or apparatus belonging to a consumer or used by an approved person for the supply of piped water suitable for drinking.

[S 153/2019 wef 25/03/2019]

Service of notices

46. Unless otherwise provided in these Regulations, any notice or direction required to be served by the Board under these Regulations shall be signed by an authorised officer and the notice or direction shall be deemed to be correctly served if sent by post to the person or left at his last known address.

Penalty

47. Any person guilty of an offence under any provision of these Regulations for which no penalty is expressly provided shall be liable on conviction to a fine not exceeding \$10,000 or to imprisonment for a term not exceeding 12 months or to both and, in the case of a

continuing offence, to a further fine not exceeding \$250 for every day or part thereof during which the offence continues after conviction.

FIRST SCHEDULE

Regulations 4(1) and (2), 8(1), 17(1)
and (2), 26(1) and (2) and 29(1)

REQUIREMENTS FOR WATER FITTINGS

Water fittings

1.—(1) Subject to sub-paragraph (2), no material or substance which, either alone or in combination with any other water fitting, material or substance or with the contents of any water fitting of which it forms a part, causes or is likely to cause contamination of water shall be used in the construction, installation, renewal, repair or replacement of any water fitting which conveys or receives, or may convey or receive, or is intended to convey or receive piped water suitable for drinking.

[S 153/2019 wef 25/03/2019]

(2) Sub-paragraph (1) shall not apply to a water fitting downstream of a terminal fitting supplying piped water suitable for drinking where —

- (a) the use to which the water fitting downstream is put does not require piped water suitable for drinking; and
- (b) a suitable arrangement or an adequate device to prevent backflow is installed.

[S 153/2019 wef 25/03/2019]

2.—(1) Water fittings shall be made of material which is corrosion-resistant or shall be effectively protected from corrosion and deterioration.

(2) No water fitting shall be made of material susceptible to permeation by any gas or any other substance which could cause contamination of the water in the pipe.

(3) No water fitting shall be made of lead or lead alloy.

3. No water fitting shall be installed in such a position or to pass through such surroundings or substances that —

- (a) cause contamination of water supplied by the Board or piped water suitable for drinking supplied by an approved person, or contamination or damage to the water fitting; or

[S 153/2019 wef 25/03/2019]

- (b) is likely to cause contamination of water supplied by the Board or piped water suitable for drinking supplied by an approved person, or

FIRST SCHEDULE — *continued*

contamination or damage to the water fitting unless it is impracticable for the water fitting to be installed elsewhere and all necessary measures are taken to avoid any risk of contamination of the water supplied by the Board or piped water suitable for drinking supplied by an approved person, and contamination or damage to the water fitting.

[S 153/2019 wef 25/03/2019]

4. Pipes and pipe fittings which convey any fluid other than piped water suitable for drinking (excluding NEWater) shall be clearly identified so as to be easily distinguished from any service pipe or distributing pipe which conveys piped water suitable for drinking (excluding NEWater).

[S 153/2019 wef 25/03/2019]

5. Every concealed pipe shall be watertight and suitable for the default pressure and temperature likely to be encountered by the pipe in the place where it is concealed.

6. No service pipe shall be connected to —

- (a) a distributing pipe;
- (b) a pump delivery pipe drawing water either from a distributing pipe or from a storage tank; or
- (c) the suction pipe of any pump.

Storage tanks

[S 164/2018 wef 01/04/2018]

7. Every storage tank for storing piped water suitable for drinking (excluding NEWater) shall be watertight, of adequate strength, properly supported and shall be constructed of copper, glass reinforced polyester, concrete or other corrosion-resisting materials and shall not have any adverse effect on the quality of water contained therein.

[S 153/2019 wef 25/03/2019]

8. Every storage tank and any water fitting connected directly to it shall be free from distortion or damage.

9. All pumps used in connection with the supply of piped water suitable for drinking (excluding NEWater), and other associated appliances and devices of a storage tank, shall be protected against contamination.

[S 153/2019 wef 25/03/2019]

10. A storage tank receiving piped water suitable for drinking (excluding NEWater) shall be fitted with an adequate device or so constructed as to prevent

FIRST SCHEDULE — *continued*

any backflow from the storage tank to any water fitting or water main or other pipe conveying such water.

[S 153/2019 wef 25/03/2019]

11.—(1) Every storage tank shall be fitted with —

- (a) an overflow pipe which has a suitable means of warning of an impending overflow; and
- (b) a float-operated valve, an effective adjustable valve or any other effective device for controlling the inflow of water which —
 - (i) is capable of shutting off the inflow of water at a suitable level below the overflowing level of the tank; and
 - (ii) which can be readily installed, repaired, renewed or adjusted.

(2) Every storage tank shall be fitted with a servicing valve on the inlet pipe adjacent to the tank and a servicing valve on the outlet pipe.

(3) Where 2 or more storage tanks at the same level are connected together, the pipe used to connect one tank to another shall be fitted with a stop-valve.

[S 164/2018 wef 01/04/2018]

(4) Every inlet pipe to a storage tank, whether fitted with a float-operated valve or not shall be fitted in such a position that it discharges at a level higher than the overflowing level of the overflow pipe or, if there is more than one overflow pipe, the highest overflow pipe, by not less than the diameter of that overflow pipe, unless there is an effective means of preventing the siphonage of water back through the inlet.

[S 164/2018 wef 01/04/2018]

12. A storage tank receiving piped water suitable for drinking (excluding NEWater), and any other water, must have an air-gap of not less than 150 millimetres between the inlet of the storage tank receiving the piped water suitable for drinking (excluding NEWater) and the top edge of the storage tank.

[S 153/2019 wef 25/03/2019]

13.—(1) The inspection manhole covers of a storage tank shall be close-fitted and hinged or chained to the tank.

(2) The inspection manhole covers of a storage tank shall be properly closed, secured and locked.

- (3) The air vents and warning and overflow pipes of a storage tank shall be —
- (a) made of corrosion-resisting material;

FIRST SCHEDULE — *continued*

- (b) integrated with the tank or otherwise fastened onto the tank with corrosion-resisting fasteners;
- (c) properly screened to prevent ingress of any animal or foreign material; and
- (d) easily visible and noticeable.

14. Every isolated compartment of a storage tank shall be fitted with a tap for sampling purposes located midway between the top operating water level and the floor of the tank or on the outlet pipe from the compartment of the storage tank.

15. Every storage tank shall be so equipped as to be secured against unauthorised access and contamination and pollution of the water contained therein.

16.—(1) No storage tank shall be installed in such a position that —

- (a) it is directly below any sanitary pipe, floor trap, sewer pipe, reclaimed water pipe or waste pipe;
- (b) it is in danger of being flooded;
- (c) the water contained in it is contaminated or liable to contamination;
- (d) it is not readily accessible for the purposes of inspection, cleaning and maintenance;
- (e) it is unsightly if exposed to public view, unless it is not practicable to position or place the tank in any other place;
- (f) it is buried or sunk in the ground unless —
 - (i) there is sufficient space around and beneath the storage tank for the purposes of maintenance and detection of leakage; and
 - (ii) the storage tank satisfies either of the following requirements:
 - (A) it is a closed vessel with a tightly fitting access cover bolted or screwed in position, and with any air inlet and overflow pipe suitably screened; or
 - (B) its inlet pipe discharges into the air no less than 150 millimetres above its top edge.

(2) Sub-paragraph (1)(f)(i) shall not apply in relation to a concrete storage tank designed and constructed in accordance with Singapore Standard CP 48 — Code of Practice for Water Services and any other requirements of the Board.

[S 164/2018 wef 01/04/2018]

FIRST SCHEDULE — *continued*

Flushing cisterns and flush valves

17.—(1) Subject to sub-paragraph (2), every water-closet pan and every urinal shall be provided with a flushing cistern or flush valve.

[S 153/2019 wef 25/03/2019]

(2) Flush valves shall not be used in residential dwelling units.

18.—(1) Every flushing cistern serving a water-closet pan must be of such a design, and be arranged, so as to give a dual flush of 2 different volumes such that —

(a) the volume of the full flush does not exceed 4 litres; and

(b) the volume of the reduced flush does not exceed 3 litres.

(2) Every flush valve serving a water-closet pan must be of such a design, and be arranged, so as to give a single flush of not more than 4.5 litres.

(3) Every flush valve serving a urinal must be of such a design, and be arranged, so as to give a single flush of not more than one litre.

[S 192/2019 wef 01/04/2019]

19. Every flushing cistern or flush valve shall be fitted with an adequate device or so constructed to prevent the backflow of water to any pipe conveying water supplied by the Board or piped water suitable for drinking supplied by an approved person.

[S 153/2019 wef 25/03/2019]

20. Every flushing cistern or flush valve connected directly or indirectly to any pipe conveying water supplied by the Board must be of a design that does not cause any wastage of water supplied by the Board.

[S 153/2019 wef 25/03/2019]

[S 153/2019 wef 25/03/2019]

SECOND SCHEDULE

Regulations 40A, 40AA and 40AF

PART 1

TEST STANDARD OR METHOD

1. A test report for a specified water fitting must contain the results of tests carried out for the specified water fitting in accordance with the applicable test standard or method, as follows:

SECOND SCHEDULE — *continued*

<i>First column</i>	<i>Second column</i>	<i>Third column</i>
<i>Specified water fitting</i>	<i>Type</i>	<i>Applicable test standard or method</i>
(1) Taps and mixers	(a) Pillar basin taps)	
	(b) Self-closing)	
	delayed-action)	
	basin taps)	
	(c) Sensor (including)	
	self-closing)	
	delayed-action))	
	basin taps)	
	(d) Combination basin)	
	taps)	
	(e) Bib taps)	
	(f) Sink taps (cold)	(i) Annex A of SS
	water only))	448: Part 3
	(g) Sensor sink taps)	(1998); or
	(h) Combination sink)	(ii) section 10 of BS
	taps)	EN 200 (2008)

	shower taps)	
		The flow rate is
		determined in
		accordance with
		paragraph 2

SECOND SCHEDULE — *continued*

<i>First column</i>	<i>Second column</i>	<i>Third column</i>
<i>Specified water fitting</i>	<i>Type</i>	<i>Applicable test standard or method</i>
	(m) Mechanical basin, sink or shower mixers with a single or separate control device for adjusting flow rate and temperature	— Section 10 of BS EN 817 (2008) The flow rate is determined in accordance with paragraph 2
	(n) Thermostatic mixer for basin, sink, bib or shower	— Section 10 of BS EN 1287 (1999) or section 13.2 of BS EN 1111(2017) The flow rate is determined in accordance with paragraph 2
(2) Flushing cistern	(a) Dual-flush low capacity flushing cisterns with volume discharge of 3.5 litres or more for full flush	— SS 574: Part 1 (2012), Volume of Discharge per flush
	(b) Dual-flush low capacity cisterns with volume of discharge of less than 3.5 litres for full flush	— (i) SS 574: Part 1 (2012), Volume of Discharge per flush; and (ii) SS 574: Part 1 (2012), Annex J — WC Drainline Transportation test

SECOND SCHEDULE — *continued*

<i>First column</i>	<i>Second column</i>	<i>Third column</i>
<i>Specified water fitting</i>	<i>Type</i>	<i>Applicable test standard or method</i>
(3) Urinal flush valve	(a) Urinal flush valve with flush volume of 0.5 litres or more	— The test method for determining the flush volume set out in paragraph 3
	(b) Urinal flush valve with flush volume of less than 0.5 litres	— (i) The test method for determining the flush volume set out in paragraph 3; and (ii) Dye Test specified in — (A) Clause 8.5 of the ASME A112.19.2 - 2008/CSA B45.1-08; or (B) ASME A112.19.2 - 2013/CSA B45.1-13
(4) Clothes washing machine		— (a) Clause 8.6 of IEC 60456 Edition 5.0 (2010-02); or (b) Clause 11 of BS EN 60456 (2005) relating to measurement of water consumption The water consumption is

SECOND SCHEDULE — *continued*

<i>First column</i>	<i>Second column</i>	<i>Third column</i>
<i>Specified water fitting</i>	<i>Type</i>	<i>Applicable test standard or method</i>
		determined in accordance with paragraph 4
(5) Dishwasher	—	<p>(a) Clause 8.2.4 of BS EN 50242: 2016 / BS EN 60436: 2016; or</p> <p>(b) Clause 8.2.4 of IEC 60436: 2015</p> <p>The water consumption is determined in accordance with paragraph 4A</p>

[S 192/2019 wef 01/04/2019]

[S 535/2018 wef 01/10/2018]

2. The flow rate for a tap and mixer is the mean of the average flow rates measured in litres per minute and at the dynamic flow pressures of 1.5 bars, 2.5 bars, 3.5 bars, 4.5 bars and 5 bars.

3. The urinal flush valve is tested at dynamic pressure of 3 bars. The discharge volume per flush is measured with the following test method:

- (a) the flush pipe is to be 300 mm long with an internal diameter of at least 13 mm and is to be secured to the outlet of the valve;
- (b) the pressure gauge and control valve are to be fitted at the inlet of the flush valve;
- (c) the flush valve is to be connected to a water supply system and the dynamic pressure of the water supply adjusted to 0.7 bars;
- (d) the flow regulator is to be set at maximum;
- (e) the operating member must continue to be held actuated until the flow of water ceases;

SECOND SCHEDULE — *continued*

(f) the flush volume is the volume of water that is discharged from the flush pipe from the actuation of the operating member to cessation of flow of water.

4. The water consumption for a clothes washing machine is to be measured using the wash programme or other associated settings recommended in the manufacturer's product literature for a normally soiled load at rated load capacity, and the following are not required as a test condition:

- (a) the use of a reference clothes washing machine for normalisation of base load items;
- (b) the parallel operation of a reference clothes washing machine with the tested clothes washing machine;
- (c) the use of a specific inlet water temperature, water hardness, water pressure, ambient temperature or humidity;
- (d) the use of stain test strips;
- (e) the use of detergent.

4A. The water consumption for a dishwasher is to be measured using the wash programme or other associated settings recommended in the manufacturer's product literature for normally soiled tableware at rated dishwasher capacity, and the following are not required as a test condition:

- (a) the use of a reference dishwasher for normalisation of base load items;
- (b) the parallel operation of a reference dishwasher with the tested dishwasher;
- (c) the use of a specific inlet water temperature, water hardness, water pressure, ambient temperature or humidity;
- (d) the use of soiling agents;
- (e) the use of detergent, rinse agent or salt;
- (f) the use of an electric supply at a specific voltage;
- (g) the use of regeneration operations;
- (h) the preparation and application of soiling agents.

[S 535/2018 wef 01/10/2018]

5. In this Part, unless the context otherwise requires —

“ASME” means American Society of Mechanical Engineers;

“BS EN” means the British Standards European Norm;

SECOND SCHEDULE — *continued*

“IEC” means the International Electrotechnical Commission;

“SS” means the Singapore Standards.

PART 2

WATER EFFICIENCY LABEL REQUIREMENTS

1. Every Water Efficiency Label must —
 - (a) be of the same dimensions as the samples at paragraph 3, or proportionately larger;
 - (b) be of the same shape and colour as the samples at paragraph 3;
 - (c) contain text set out in the samples at paragraph 3 that is —
 - (i) of the typeface Arial;
 - (ii) legible;
 - (iii) in the English language only; and
 - (iv) consistent with or drawn from the relevant test report;
 - (d) show the number of ticks for a specified water fitting, determined in accordance with paragraph 2;
 - (e) be printed in an indelible manner and with a minimum resolution of 300 pixels per inch; and
 - (f) be made of such material as the Board may approve.
2. The number of ticks to be shown on the Water Efficiency Label for a specified water fitting are to be determined as follows:

- (a) basin tap and mixer —

<i>Number of ticks</i>	<i>Flow rate (litres per minute)</i>
2	$2 < \text{flow rate} \leq 4$
3	$\text{flow rate} \leq 2$

[S 192/2019 wef 01/04/2019]

- (b) sink tap and mixer or bib tap and mixer —

<i>Number of ticks</i>	<i>Flow rate (litres per minute)</i>
2	$4 < \text{flow rate} \leq 6$

SECOND SCHEDULE — *continued*

3 flow rate ≤ 4

[S 192/2019 wef 01/04/2019]

(c) shower tap and mixer —

Number of ticks *Flow rate (litres per minute)*

2 $5 < \text{flow rate} \leq 7$

3 flow rate ≤ 5

[S 192/2019 wef 01/04/2019]

(d) flushing cisterns —

Number of ticks *Flush volume (litres per flush)*

2 (a) $3.5 < \text{flush volume for full flush} \leq 4$; and

(b) $2.5 < \text{flush volume for reduced flush} \leq 3$

3 (a) flush volume for full flush ≤ 3.5 ; and

(b) flush volume for reduced flush ≤ 2.5

[S 192/2019 wef 01/04/2019]

(e) urinal flush valves and waterless urinals —

Number of ticks *Flush volume (litres per flush)*

2 $0.5 < \text{flush volume} \leq 1$

3 flush volume ≤ 0.5

[S 192/2019 wef 01/04/2019]

(f) clothes washing machines —

Number of ticks *Water consumption (litres per kg)*

2 $9 < \text{water consumption} \leq 12$

3 $6 < \text{water consumption} \leq 9$

4 water consumption ≤ 6

(g) dishwashers —

Number of ticks *Water consumption (litres per place setting)*

1 $1.2 < \text{water consumption} \leq 1.5$

SECOND SCHEDULE — *continued*

- 2 0.9 < water consumption ≤ 1.2
- 3 0.6 < water consumption ≤ 0.9
- 4 water consumption ≤ 0.6

[S 535/2018 wef 01/10/2018]

3. The samples of the Water Efficiency Label are as follows:

Label 1

WATER EFFICIENCY LABEL FOR TAPS AND MIXERS, FLUSHING CISTERNS, URINAL FLUSH VALVES AND WATERLESS URINALS

Label 2

WATER EFFICIENCY LABEL FOR CLOTHES WASHING MACHINES AND DISHWASHERS

SECOND SCHEDULE — continued

[S 535/2018 wef 01/10/2018]

4. In this Part —

“flow rate” means the volume of water that flows out of a tap and mixer per minute, as specified in the test report;

“flush volume” means the volume of water that is discharged from a flushing cistern or urinal flush valve or waterless urinal, as specified in the test report;

“place setting” means —

(a) where the test standard used is BS EN 50242: 2016 / BS EN 60436: 2016, the set of tableware items specified in Annex A of BS EN 50242: 2016 / BS EN 60436: 2016; and

(b) where the test standard used is IEC 60436: 2015, the set of tableware items specified in Annex A of IEC 60436: 2015;

[S 535/2018 wef 01/10/2018]

“water consumption” means —

(a) in relation to a clothes washing machine, the volume of water used by the clothes washing machine, as specified in the test report; and

SECOND SCHEDULE — *continued*

- (b) in relation to a dishwasher, the volume of water used by the dishwasher, as specified in the test report.

[S 535/2018 wef 01/10/2018]

PART 3

WATER EFFICIENCY REQUIREMENTS

1. Every tap and mixer, regardless of the type, must meet all of the following requirements:

- (a) the difference between the highest and lowest flow rates (measured at the dynamic flow pressures specified in paragraph 2 of Part 1 of this Schedule) of the tap and mixer must not exceed 2 litres per minute;
- (b) the highest flow rate of the tap and mixer must not exceed the upper limit of the range of flow rates within which the flow rate of the tap and mixer falls (under paragraph 2 of Part 2 of this Schedule) by more than 0.5 litres per minute;
- (c) the lowest flow rate of the tap and mixer —
- (i) for a sink tap and mixer with a flow rate falling within the range of flow rates specified for 3 ticks — must not be lower than 2.5 litres per minute;
 - (ii) for a sink tap and mixer with a flow rate falling within the range of flow rates specified for 2 ticks — must not be lower than 3.5 litres per minute;
 - (iii) for a basin tap and mixer, with a flow rate falling within the range of flow rates specified for 2 ticks and 3 ticks — must not be lower than 1.5 litres per minute;
 - (iv) for a bib tap and mixer with a flow rate falling within the range of flow rates specified for 2 ticks and 3 ticks — must not be lower than 3.5 litres per minute; and
 - (v) for a shower tap and mixer with a flow rate falling within the range of flow rates specified for 2 ticks and 3 ticks — must not be lower than 4.5 litres per minute;

[S 192/2019 wef 01/04/2019]

- (d) the tap and mixer must have a flow rate as follows:

- (i) for basin tap and mixer, not more than 4 litres per minute;

[S 192/2019 wef 01/04/2019]

SECOND SCHEDULE — *continued*

- (ii) for a sink tap and mixer or bib tap and mixer, not more than 6 litres per minute;

[S 192/2019 wef 01/04/2019]

- (iii) for a shower tap and mixer, not more than 7 litres per minute.

[S 192/2019 wef 01/04/2019]

2. Every flushing cistern or flush valve serving a urinal must be of such a design as to use not more than the amount of water specified in paragraph 18(1) or (3) of the First Schedule, as the case may be.

[S 192/2019 wef 01/04/2019]

3. Every clothes washing machine intended for household use must be of such a design as to use not more than 12 litres of water per kilogram of wash load for the washing programme recommended by the manufacturer for a normally soiled load at the rated capacity of the washing machine.

4. Every dishwasher intended for household use must be of such a design as to use not more than 1.5 litres of water per place setting for normally soiled tableware at rated dishwasher capacity.

[S 535/2018 wef 01/10/2018]

5. In this Part —

“flow rate” means the volume of water that flows out of a tap and mixer per minute, as specified in the test report;

“place setting” means —

- (a) where the test standard used is BS EN 50242: 2016 / BS EN 60436: 2016, the set of tableware items specified in Annex A of BS EN 50242: 2016 / BS EN 60436: 2016; and
- (b) where the test standard used is IEC 60436: 2015, the set of tableware items specified in Annex A of IEC 60436: 2015.

[S 535/2018 wef 01/10/2018]

THIRD SCHEDULE

Regulations 36(15) and 38(5)

FEES

1.—(1) [*Deleted by S 164/2018 wef 01/04/2018*]

(2) [*Deleted by S 164/2018 wef 01/04/2018*]

(3) [*Deleted by S 164/2018 wef 01/04/2018*]

THIRD SCHEDULE — *continued*

- (4) [*Deleted by S 97/2005 wef 01/03/2005*]
- (5) Fee for fixing meter and turning on supply, or for turning on supply for an existing service reconnection due to default in payment of the bills from the Board 17.655
- (6) [*Deleted by S 97/2005 wef 01/03/2005*]
- (7) Fee for reminder issued by the Board or its agent to consumer who fails to make payment in accordance with his bill \$0.535
- (8) [*Deleted by S 97/2005 wef 01/03/2005*]

2. The fees for item 1(5) and (7) are inclusive of the goods and services tax chargeable under the Goods and Services Tax Act (Cap. 117A) on the supply of goods or services in respect of which the fees are payable.

[*S 832/2010 wef 01/01/2011*]

[*S 703/2008 wef 01/07/2009*]

[*S 97/2005 wef 01/03/2005*]

[*S 164/2018 wef 01/04/2018*]

FOURTH SCHEDULE

Regulations 40B and 40K(2), (3), (4)
and (5)

WATER USAGE AREAS AT WHICH AMOUNT OF
WATER USE IS TO BE MONITORED

<i>First column</i>	<i>Second column</i>
<i>Sector to which consumer belongs</i>	<i>Water usage areas at which amount of water use is to be monitored</i>
1. Industries	(a) Process (b) Cooling tower (c) Boiler (d) Scrubber (e) Cooking area or kitchen

FOURTH SCHEDULE — *continued*

<i>First column</i>	<i>Second column</i>
<i>Sector to which consumer belongs</i>	<i>Water usage areas at which amount of water use is to be monitored</i>
	(f) Toilet
2. Hotels	(a) Guestroom (b) Cooling tower (c) Food and beverage outlet (d) Production kitchen (e) Laundry (f) Cold water inlet to hot water supply or boiler (g) Swimming pool
3. Tertiary institution, prison, or military or defence installation	(a) Cooling tower (b) Toilets for each block (c) Washing area (d) Swimming pool
4. Hospitals	(a) Cooling tower (b) Toilets, wards and operating theatres for each block (c) Kitchen (d) Cold water inlet to hot water supply or boiler
5. Workers' dormitories	(a) Toilets for each block (b) Cooking area (c) Laundry (d) Washing area
6. Construction sites and concrete batching plants	(a) Construction activity (b) Recharge well (c) Concrete production (d) Toilet

FOURTH SCHEDULE — *continued*

<i>First column</i>	<i>Second column</i>
<i>Sector to which consumer belongs</i>	<i>Water usage areas at which amount of water use is to be monitored</i>
	(e) Vehicle washing area
7. Sports and recreational facilities and tourist attractions	(a) Cooling tower (b) Exhibit or enclosure (c) Washing area (d) Toilet (e) Food and beverage outlet (f) Irrigation (g) Swimming pool
8. Office or retail building, or any other building not mentioned in items 1 to 7	(a) Cooling tower (b) Toilet

[G.N. No. S 584/2002]

LEGISLATIVE HISTORY
PUBLIC UTILITIES (WATER SUPPLY) REGULATIONS
(CHAPTER 261, RG 5)

This Legislative History is provided for the convenience of users of the Public Utilities (Water Supply) Regulations. It is not part of these Regulations.

1. G.N. No. S 584/2002 — Public Utilities (Water Supply) Regulations 2002

Date of commencement : 22 November 2002

2. 2004 Revised Edition — Public Utilities (Water Supply) Regulations

Date of operation : 30 September 2004

3. G. N. No. S 97/2005 — Public Utilities (Water Supply) (Amendment) Regulations 2005

Date of commencement : 1 March 2005

4. G. N. No. S 703/2008 — Public Utilities (Water Supply) (Amendment) Regulations 2008

Date of commencement : 1 July 2009

5. G. N. No. S 832/2010 — Public Utilities (Water Supply) (Amendment) Regulations 2010

Date of commencement : 1 January 2011

6. G. N. No. S 161/2011 — Public Utilities (Water Supply) (Amendment) Regulations 2011

Date of commencement : 1 October 2011

7. G.N. No. S 616/2013 — Public Utilities (Water Supply) (Amendment) Regulations 2013

Date of commencement : 1 April 2014

8. G.N. No. S 721/2014 — Public Utilities (Water Supply) (Amendment) Regulations 2014

Date of commencement : 1 November 2014

9. G.N. No. S 826/2014 — Public Utilities (Water Supply) (Amendment No. 2) Regulations 2014

Date of commencement : 1 January 2015

10. G.N. No. S 55/2015 — Public Utilities (Water Supply) (Amendment) Regulations 2015

Date of commencement : 1 October 2015

11. G.N. No. S 133/2017 — Public Utilities (Water Supply) (Amendment) Regulations 2017

Date of commencement : 1 January 2016

12. G.N. No. S 133/2017 — Public Utilities (Water Supply) (Amendment) Regulations 2017

Date of commencement : 1 April 2017

13. G.N. No. S 336/2017 — Public Utilities (Water Supply) (Amendment No. 2) Regulations 2017

Date of commencement : 30 June 2017

14. G.N. No. S 164/2018 — Public Utilities (Water Supply) (Amendment) Regulations 2018

Date of commencement : 1 April 2018

15. G.N. No. S 535/2018 — Public Utilities (Water Supply) (Amendment No. 2) Regulations 2018

Date of commencement : 1 October 2018

16. G.N. No. S 112/2019 — Public Utilities (Water Supply) (Amendment) Regulations 2019

Date of commencement : 1 March 2019

17. G.N. No. S 153/2019 — Public Utilities (Water Supply) (Amendment No. 2) Regulations 2019

Date of commencement : 25 March 2019

18. G.N. No. S 192/2019 — Public Utilities (Water Supply) (Amendment No. 3) Regulations 2019

Date of commencement : 1 April 2019
